Edit: 6/18/14 Now trading any BTC-E Currency

Hey fellas. I am selling bitcoins. I have a level 2 coinbase account so I can buy and sell bitcoins without waiting. Let me know if you are interested in doing some business :)

Proof of bicoins and verification

Spoiler ([Click to View](#))

Guys please take into account that BTC is a virtual currency and is impossible to recover. I do not want to use a MM or go first etc. I have completed around 4 deals so far without issue. Please don't hold it against me that I don't want to send 150\$ in unrecoverable currency first or to a MM. I'm sure you can understand.

Payment Info:

Right now I am only accepting Greendot MoneyPak, Western Union Transfers, and Moneybookers/Skrill (people whom I deem as trustworthy).

All deals will be done via HF PM. I really am not a shady guy and I don't want to come off as one. I just want to be careful for the time being. Always remember prices are negotiable so just drop me a PM and we can work from there! All moneypak redemptions will be recorded and done on teamviewer for evidence if necessary. Please remember that YOU the buyer are dealing with me the seller. If you have any issue with payment methods or instructions then it would be better to hold off on a deal for the safety of us both. Thank you for understanding guys and I look forward to doing business with everyone!

You should add what your exchange rate is. That would help. And use the spoiler tag to hide your pic.

Inappropriate - August 28, 2013, 10:47 am

Sent you a PM regarding your service.

And I agree, you should really add a spoiler tag for that image.

Hope for successful transactions.

I have done so many deals now 1800\$ worth actually. The only thing now is that paypal is holding 600 pounds because of "suspicious activity" since it was foreign currency. Hopefully they release me the money... I will be devastated if I do not get it back.

Tiszy - August 29, 2013, 10:00 am

They did it because they are suspicious because they think the buyer's funding was unauthorized. I already did what I can it is in their hands now
