Thread: [Not trying to complain or anything but I think I got an un-necessary warning \[D3xus\]](#)

Huskar - August 31, 2013, 12:09 am

So I received a 20% level warning from:

[D3xus](#)

For asking members to click my link.
in the HF l33t OT Discussions (OT Means off topic right ?)

He gave me the points for " Posting Etiquette "

Spoiler ([Click to View](#))Image:

I read the rules and none was related to my post (about asking members to click my adf.ly link)

Rules Image: Spoiler ([Click to View](#))

He probably thought it was a referral link ?

Definition of referral: an act of referring someone or something for consultation, review, or further action.

I did not provide my " adf.ly Referral " link.

Just my link to an advertisement .

I know I might get hated and flamed for this thread but please don't I just want to understand why he did this , thanks .

Not trying to complain I love the staff , they keep everything in order .

I also seen people on that section like: Please like my video , please click my link , please vote here , and I never seen them get a warning

Discuss this with D3xus, no need to make a thread.

You can't put referral links outside of the referral forum or your signature. You can't even ask for people to click them in the Ub3r requests forum.
