Hey guys,

I've got another MEP part to show you that I finished recently for a friend of mine in another MEP studio, and this time I decided to get a bit flashy and use After Effects for once. Took about 3 hours overall.

Extras:

I also did an IC (time-based AMV competition) for 2 hours only, and won it over with an edit of Sakurasou no Pet na Kanojo.

I'm not sure how you could do it, but there should be more difference between the happy scenes and the violent scenes. Make them contrast each other.

Overall, very nice :)

I'd have to agree with agsking in that there should be more of a contrast between the happy emotional scenes to the violent ones. Other than that it was very nice :3

Loved your second one so much that this image should explain it all

910 times * 79 seconds = 1198.1667 minutes
1198.1667 minutes / 60 minutes = 19.969444 hours
19.969444 hours I've spent re-watching that amv :).

And yes I've had basically nothing to do and no life when watching it for that long :)
