Thread: [Any unique service/product you can offer.](#)

Hi, I am about to start up a new market and I am looking for things to add however I can do a lot of things I can't run all of them 24/7. So, I thought I'd ask some of you out there looking for work.

Services I already have:

Social media services

A few eBooks

YouTube SEO services

CPA/PPD niche creation/management

Services that I would like to have:

Botshop

Stresser

Any new eBooks

==

What you get:

A thread in the sponsored products and services (I have talked to some of the users who have a subforum in there and they said that they saw a huge boost in sales some as high as 125%)

If the product is unique and high quality enough I'll buy you a sticky in any section as well as sticky you in the sponsored products and services thread.

Requirements:

Unique and high quality product/service that isn't in my market

No scam reports

No negative reputation with anything regarding marketplace discussions

10% if the profits go to myself to cover the expense of the subforum

Great customer support, friendly, patience and credibility.

Let me know if you have any questions regarding this or if you have any product or service that you would like to expand on. Thanks!

Do you mean 'unique product/service' as in, it's not already on your market, or just unique overall?
