Thread: [\[GOVT SITE\] Found a non persistent XSS](#)

g0han - September 1, 2013, 6:56 pm

I just started learning XSS, and today i found a non persistent XSS in a government site in my country :) I have reported this vulnerability to them and am waiting to here back.

1280x800 Image:

Spoiler [\(Click to View\)](#)

I Haven't done anything malicious. Just tested it out, I know its nothing great but I was just pleased because its been my first actual XSS.

Congrats! In my opinion, You are white hat.

I also test on your gov site:got it ,I'm white help

Really thanks.

Krieg - September 1, 2013, 8:10 pm

You found a nonpersistent XSS?

I found a nonpersistent fuck to give!

Im gone brah - September 2, 2013, 4:33 am

Yeah, indeed.

op, Gov sites got terrible protection.. Even worse than a normal company.?
