Thread: [Looking for pentesting crew or individual...](#)

MushyZerg - September 1, 2013, 9:09 pm

Greetings,

I'm wondering if there are any individuals or small groups of pentesters out there looking to share information, knowledge or targets. No profit or hidden agendas; just challenge and company. I've compromised some enterprise-level servers throughout my time and would like to share ideas and strategies.

Post here or PM me. I only use IRC.

Goodies - September 2, 2013, 2:53 am

I use some IRC but usually torchat which I recommend. Anyways, what are you looking for? I'm a network security tech but I'm not sure what you're looking for ;)

~ Goodies ?

He's looking to find some others who share knowledge of penetration testing. He wants to have a group. Obviously an unofficial one. Not that hard to work it out. ?

Well, be apart of one anyway. Not make one himself.

Good luck.

No lol I understand that. I'm familiar with many attack and defense vectors when pentesting. I was wondering what exactly he wanted so I can accept or refuse the offer ;)

refuse the offer ;)

Penetration. Plain and simple. It doesn't matter how it's done. It's just boring working in a LAN or alone.

Thank you for your interest though but I found some people.

This is from a Syrian server last night. Fun times...?
