Just a pre warning guys, this could cause spoilers for Attack On Titan/Shingeki No Kyojin, Naruto, Fairy Tail, Bleach, Ao No Exorcist & Hunter x Hunter. All though there is very little spoiling in it some parts could still spoil the anime for you. So don't say I didn't warn you.

Anyway I've been working on this with 6 or 7 friends and we've finally finished it and this is the end result :)

I'd love to get some feedback so I can try improve further so if you have any thoughts on it, whether they be good or bad, please share because in the end they do help :)

I thought it was good, but the best part in my opinion was the towards the ending. I really enjoyed seeing short clips of recent anime. Who knows, thats just my preference :P

It's pretty well done; nice job. :o I need to start keeping up with AMV's again; been seeing a lot of good ones lately.
