Thread: [Want to Start up your Own VPN Service? Created many of HF's most successful companies!](#)

Cryptic™ - September 2, 2013, 12:09 pm

Looking for a fast, reliable, and secure VPN service?

Check out [CrypticVPN | Autobuy | No Logs | Portforwarding | DDOS Protected | Worldwide.](#)

Greetings,

Are you someone that is looking to start a VPN business on HF? Well you've come to the right place.

I've setup tons of HF's most successful VPNs (see the list at the bottom of this post).

I offer a variety of different setups that can be catered to your exact needs.

1. Cryptic's Setup - I will provide you a stand-alone VPN management system which will take care of everything. The software is a one time fee of \$280 and comes with the client.

Click Here to see the details of the Cryptic's Setup Plan ([Click to View](#))

Original Thread: <https://hackforums.net/showthread.php?tid=5157221>

I bought the ownership of the script a few months ago and have improved it myself.

General Features:

News & Updates Panel

Opening & Closing Ports

Paypal & Bitcoin Payments

Ticket Support System

Service Stats Page

Mailing List Settings

Download & Other Pages

E-Mail User VPN Information after Payment

Ability to Reset VPN Password

General E-Mail Notifications (Ticket, Account Suspension, Expiry)

Support Staff

Administrative Features:

Customers Management

Servers Management

Packages Management

Mass E-Mail Sending

News & Updates Management

General & Payment Settings

Manage User Package / Duration

Gift Code Generation

Blacklisting Ports

Change between php / smtp mailer

Enable / disable user e-mail activation

Sync user to a specific server over admin panel

There is also a new feature when customer is able to order dedicated vpn server with private ip address, and ability to add alt vpn accounts on his server through rvpn dashboard.

Backend Features:

Create user vpn account right after the payment.

Delete user vpn account after expire.

Import all users with active vpn package to freshly added vpn server.

Save actions (such as creation, deletion of vpn accounts) if one of the vpn servers are down and execute the action once the server is back up.

Count users that connected to your vpn service.

Live Demo: <http://rvpn.gocryptic.com/index.php>

Admin Demo: <http://rvpn.gocryptic.com/administrator/login.php>

Login - Just register your own account

Admin Login - PM me for the credentials.

Client preview; <https://i.imgur.com/RPWNUBI.png>

Web Hosting Requirements:

*PHP 5.6+

*MySQL PDO

*ionCube Loader

(most web hosts have those enabled / installed by default)

I also offer web-hosting available for purchase upon request.

This is for OpenVPN Only.

2. WHMCS Setup - WHMCS (<http://www.whmcs.com>) is a popular billing management system that has modules for a variety of different applications/software. It's very popular in the webhosting/vps industry and is commonly used with cPanel/SolusVM.

Note: To use WHMCS you need to buy your own WHMCS license from WHMCS.com and you will also need to purchase the WHMCS FreeRadius Module which is \$120 from WHMCS.com but I can provide it for a discounted price.

If you are interested in selling VPN's along side webhosting/VPS's, or if you just want to use WHMCS, then this is the setup for you.

Click here to see the details of the WHMCS Setup Plan ([Click to View](#))

Package 1: For a one time fee of \$60, I can setup your servers with FreeRadius and setup a FreeRadius server, and connect them together.

Package 2: One time fee of \$175, I can setup your VPN Servers, teach you how to do it at the same time, and give you a CUSTOM VPN client that you can use to connect to your servers and give to you customers.

If you have multiple servers it will include instant server switching in the client.

Addons:

\$10 - Let's you easily open ports for your customer

\$25 - Port Forwarding Script - Let's your customers port forward by themselves. (If you buy this one the \$10 gets thrown in for free)

Pics of the \$25 add-on (Note that you can change the css and add a design to make it all pretty),
<https://imgur.com/NurKkA9>

3. Want to learn how to setup OpenVPN or PPTP or L2TP on a server? \$50 for a one-on-one lesson with me. I will answer all your questions, teach you how to do everything, and watch you do it so that I make sure you understand and learn everything you need to know. By the end of my lesson you will be an expert at setting up your own servers. I also provide support for 7 days to answer any questions or address any issues you may face.

Other Stand-alone services

\$20 - Installing FreeRadius Module in WHMCS

\$25 - Just installing a FreeRadius server.

\$50 - Me Teaching you 1 on 1 how to install a FreeRadius server.

If you are interested, Shoot me a PM.

Payment Methods: BTC / PAYPAL (Trusted users only) / PERFECT MONEY If you want to use some other method of payment, we can discuss it via PM.

VPN Management/Support - If you need help managing your VPN's Backend, such as the servers and trouble shooting/port forwarding. I can help you with anything. Monthly fee of \$25/m or \$200 / year.

T.O.S

All sales are final.

All purchases come with 5 days of support. After that you will have to purchase our VPN Management/Support add-on.

I have a large update available for all my customers using my panel (Cryptic's VPN Management System (Option 1 in the OP))

Change LogImprovements to support ticket system

Mass Mail System has been rebuilt from scratch..

Password Reset Functionality added.

Improved Port Forwarding System

Various other bug fixes

The system also requires PHP 5.6 now.

If your currently one of my customers simply PM with your license key and I will provide you with the latest files.

To install it, simply over write your existing files with the ones I give you.

(I highly recommend making a backup before you do so).

Enjoy!

Hey guys,

Just wanted to show you guys a new product that's ready to be released.

<http://vpnengine.gocryptic.com/>

If you would like to view the full demo yourself, you can PM me for the login credentials.

It's very advanced, and you will be able to choose from various themes soon. Other themes are in the process of being created. There will be a setting in the admin panel for you to toggle between themes. And eventually you will be able to design your own themes and upload them yourself.

If you're interested, contact me for prices.

I've just completed setting up VPN infrastructure for [eCoLoGy](#) who is going to be adding it to his Hosting company.

Their sales thread is here:

Huge vouch for Cryptic™

He helped me setting up everything in a matter of minutes.

Really easy to talk with and I got everything needed to run a VPN service.

Thanks for the deal mate! ?

Hello guys,

So this is a full on review on how my transaction went with Cryptic.

Firstly, Cryptic doesn't like being messed around, he never disrespected me or insulted me or was unprofessional, but he doesn't fuck around so he won't tolerate bullshit.

I went first in the transaction which was done using bitcoins, he waited on me even though it took possibly 24 hours for blockchain to give me my coins.

Once I paid, he was a busy man so it took him a while to be free to do the work required and give me the information required, we're also in different timezones he is -5 compared to me, but we still dealt with ease.

Once he installed the services which I requested and configured them, he sent me everything he did to set it up

with documentation that wasn't created by him, but isn't available on the internet, but I didn't request documentation so it was a nice addon.

I gave him a Live WHMCS Account and 2 VPS's everything was backed up, but he didn't mess around even though he had a lot in his hands.

and he's supported me with query's after the transaction was completed and helped me understand how the whole process works.

Vouch from me.

He made over a million dollars (check his recent threads) and has not logged into HF in months so it's safe to assume no. Lol
