Hello hackforums.net

Today I'm making a contest, which you can win a Golden copy of my E-Book. MY E-Book is about how to make 1000 bots/day (Check original thread [here](#))

I will pick 2 winners on 25th of September. All you have to do is to be active on the forums, and use this as your signature:

Code

```

```

The winners will be picked by a randomizer. If you have set this as your signature, Post in this thread to enter the contest. On 25th September, If the winner is not wearing the signature when getting picked, will be automatically disqualified, and a new one will be picked. Let the fun begin!

I don't think that people will win this contest due to this error message:

Signature images can be no larger than 650x200 pixels and 500k size. Animated gifs should not be annoying.

Well, this signature is 650x200 px exactly, so it's not larger than itself basically lol. Filesize hasn't been exceeded neither.

You do realize that only ub3r/l33t can enter since normal users can't wear "image signatures"?

I will update this to regular members also if I consider it well enough.
