Thread: [How to add shells to a Shell Booter Like Jays Booter?](#)

Yoinked - September 3, 2013, 8:52 am

Lol, I know I sound like a skid right now.

But I need a quick hit and I have no where else to turn.

I need a shell booter I can actually add shells to.

Thanks ?

Contact Goodies asking for his shell booter. You can add your own shells to it.

Are you saying that because you know the rules of Titanium Stresser, or are you just saying that because you think 90% of the booters have that rule?
