Thread: [Made a skype resolver need a api or test api](#)

Saint - September 3, 2013, 6:18 pm

So i made this simple Skype resolver and i was hoping if someone has a api for me or a api to test it with contact me if you could help me out for 10 seconds you can have the Skype resolver yourself if it works.

Technically that isn't a Skype Resolver, why not actually create a script that runs and grabs the IP?

Saint - September 3, 2013, 6:21 pm

Because i just started on making things like this and i find it nice to know how it all works from scratch

Without Api, it's not a skype resolver, the Api makes it a skype resolver.. ???

Altidore - September 8, 2013, 2:40 pm

why this doesnt work me for corectly ? do you have any ideas ?
