Thread: [HF Pink?](#)

I think HF should go pink because

- A. It would look feminine for the ladies
- B. It would be a great reason to show support for breast cancer
- C. I think pink is a hot color.

What do you think HF?

I think no. If anything, a pink ribbon would be added to the logo.

I don't think this would ever happen, there would be so much that Omniscient would have to modify it is crazy. If anything change the logo to have a ribbon or something.

Never gonna happen. Although pinks an awesome colour.

Design suggestions aren't accepted. However if someone wants to make a nice pink css design, I'll implement it in a userscript, just PM me.

This is the closest you will ever get to this idea, OP.

What if it was orange then? Would orange be a better colour? Or blue? That's a boys colour.
