I first released the AutoProxy Locator over a year ago and it was coded in AutoHotKey with the help of my friend ZeusBeta.

It has become outdated and I don't really like AHK anymore.

AutoProxy Locator v1: <https://hackforums.net/showthread.php?tid=1544762>

AutoProxy Locator v2: <https://hackforums.net/showthread.php?tid=1637463>

Now I present to you AutoProxy Locator v3, powered by the .NET Framework.

Just downloaded it, checked the source code.

My opinion: It's alright, could improve it by a lot, but for now, it's good. :]

You're very welcome.
Don't misuse it.
