Sorry to inform you but your prices are way too high my friend, you might want to consider lowering them.

SQRM - September 4, 2013, 6:55 pm

Which prices are you referring to?

The prices are considerably lower compared to most sellers on HF.

I've lowered the subs but the views really aren't that high considering most of hf (and other youtube sellers) sell their views for A LOT higher. Also, the retention rate of the views is 70-80%.

Thanks for your input.
