I love you so much right now I just can't explain it.

P???ce - September 7, 2013, 12:57 pm

lol that was only a ddos attach because our securiry was disabled from cloudflare
can you make more loss to our site from this one?

Don't do a capital for every new word, it's so god damn annoying.

ZomorIsMad - September 8, 2013, 4:43 am

Funny part, you didn't launch the DDoS attack nor did you do anything special. Skid :)

Try again ?

1. It was down, I was checking it on a different connection to the one attacking.
2. Thanks for blocking my SERVERS IP, now I have the motivation to make the attack run through Tor.

You two are both morons. Drana, don't act like you're a hardcore gangster just because you bought some crappy booter from someone. Not Found, your site has already been taken down once, it's clearly not that difficult. No one should feel the need to prove anything to you because really, let's face it, you wouldn't understand how someone exploited their site, even if the logs were right in front of your eyes, written in completely clear and understandable English.

Drana - November 7, 2013, 9:13 am

mr ergo i not buy booter i am vb6 coder so pls shut ur mouth nd dont open if u not know what u say ok

Well clearly you don't know what you're saying either. Also, who gives a shit about vb6? It's hardly the pinnacle of developing languages.

MrTing - November 8, 2013, 11:10 am

VB6? I laughed my ass off for a whole minute. Get out of the stone age you fucking prick.
