Lol that was funny as fuck. "I don't know how to code this" and "the builder is taking a day off" were the funniest. Upload this to youtube and get a lot of people downloading it lol.

StRaXxD - April 18, 2010, 12:57 pm

ahhaahhaahaha..

The best is...Choose .exe.....Dont choose .exe it is virus..Or something like that...lol....

BTW: I like it :)

illLusion - April 18, 2010, 1:02 pm

Haha, man that was pretty funny. But you've could've done a bit better coding wise. When you clicked the email things, If I clicked Hotmail, It would say

Gmail"MSGBBBOX"
Then
Hotmail"MSGBOX"

, And when you clicked a chkbox, You could have made it disable to.

```
if chkbox1.checked = true then  
msgbox"I don't know how to code this"  
chkbox1.checked = fale  
end if
```

all n all, funny :)

:) Pretty sure its "checked = t/f" hahah

That's not the ugliest GUI i have seen but it's not the best i have seen either.

But, the program is pretty funny, i must say i chuckled a few times. Well done bro.
