I respond immediately to anything? I don't have any messages. I am sure of that. If skype isn't working then send an email. I apologize for not being able to respond. Yesterday's downtime was a fault caused by the company I bought the VPN from.

Understalker - September 12, 2013, 12:25 pm

I just received my copy and I can personally say this VPN is amazing. For \$2/M this is also one of the cheapest VPN's.

OP has my vouch.
