developer.3c - September 7, 2013, 10:07 am

It's not about the look on your face, it's about sending a message.

Decompiler - September 7, 2013, 10:09 am

Anyone else see this thread on "A Current Affair", a documentary on Australia's Channel 9? In a segment about "ooo everyone on the internet is trying to rat your computer" ?

I didn't even know about this site. I saw the text "sexiest slave ever" on the TV screen, googled it, and here I am! So a TV expose on ratting ends up helping the would be ratters!

Strange world.
