What is E-Whoring?

E-Whoring is a type of social engineering where you take on the roll of a female in order do gain a profit from it. Many people including myself do this to make money online. One thing you will notice is that a lot of people talk about how hard it is. That is true that when you're starting off with no idea what you're doing it will be hard, however when you have a tutorial that helps you get started it's a giant help and seems easy.

Creating your identity.

These are a few things you should get:An Email account

A Canadian Or buisness PayPal account (Or another way to receive payments)

A skype account

Facebook - Optional

Twitter - Optional

So those are some accounts that you should get. Now remember the whole idea of this is to make you seem female. So think of a good name that isn't a stripper name but could be real, I use Victoria Lawsh. Once you thought of a name you need to figure out where your girl will live. Then all you need to think of is an age. I usually go with 20 or 21. When you're making all of your accounts make sure the information is consistent with what you came up with earlier.

How to talk to customers.

The number one main tip here is to always mention first that you're selling a product. You will get nowhere by extending the conversation and it will waste time. Instead, when they greet you say "Hey :D Wanna buy a cam show?". Another thing to keep in mind is don't let them waste your time. You need to be in control, say either pay me or you might as well block me. If they try to make up an excuse, sob story or try to tell you that they're sexy and you should do it for free, block them. When you're talking to them let them see the VCW but not nude. Never send the customer nude images or videos before they pay. Remember to never take an "Oh, my credit card comes tomorrow. Do the show now and I will pay double tomorrow!". One thing that I do but some debate other wise is to use short English and use lots of smiley faces. If you don't know what that is it's like "You" become "U" and "Someone" because "Some1" and stuff like that, you can use this if you want.

How to take payments.

So know you want to know about the real part, getting paid. Always make them pay first, if they're hesitant asking what if you scam them turn it around on them. Say something like "How do I know you're not wasting my time and want free stuff". A good tip for if you're accepting by PayPal then make an invoice and in the ToS write that you may not charge back, all payments are final. If someone does charge back you can be like uhhh PayPal this is my money, he agreed he wouldn't charge back.

Pictures and VCWs.

So you want to have good content to sell. You need to first find a few VCWs you like. VCW stands for Virtual Cam Whore. What that means is it's a model that has been configured in Flash so when you click a button like "Wave" the model will wave. Once you find a good VCW you want to find a good picture pack that either matches the model or looks the same. I recommend the Tiffany VCW or the Rachel VCW they are both free and look good. If you can afford to buy a VCW then use that, they have many more actions and can charge for a better show.

These are two that are very good and I would recommend.

Important downloads.

You will want to be able to run multiple skype windows at the same time so I use a program called MultiSkype Launcher. [Link Here](#)

You will want to be able to run your VCW so here is the stand alone flash player. [Link Here](#)

When you're showing off the VCW you do not want another page to accidentally go over the flash player so use a program called DeskPins to keep the window always on top.[Link Here](#)

User ManyCam so you can actually play the VCW though a webcam. [Link Here](#)

Here is a collection of some of the content I have given away.

What are some good websites?

So basically you want to find an unsaturated site. An unsaturated site is where there aren't a lot of other people E-Whoring on. This is beneficial because more money can come to you and you don't have to prove you're real as much. Now when I started off I went to Omegle and Chatroulette. Those sites are still good but now I use adult dating websites. One of the sites I use is called XDating.com. One thing to keep in mind is to always direct customers off the website and to your skype because no dating site wants to become a happy place for E-Whores. A tip I picked up on is be in controll, do not ask the customer if they have skype, instead tell them to add your skype. If they don't have skype well then they will sure download it for you. So to sum it up, any adult dating site is good, you're looking for those white rich guys!

Frequently asked questions.

Q: Do you give the person the cam show/pictures?

A: Yes, I always give the show and pictures. It prevents PayPal deal disputes.

Q: Does E-Whoring make you or mean that you're gay?

A: In my opinion no, it has not changed my sexual orientation. I'm in it for the money not the dick.

Q: When I E-Whore should I be connected through a VPN?

A: Yes, it is always safer. Especially if you're going to dox them and blackmail them for more money later.

Q: What is milking?

A: Milking is when you get every last bit of money possible out of a customer.

Q: How can I milk a customer?

A: Once you have sold both pictures and a cam show to the customer say that your roommate does shows too and would like to sell a show as well. Then keep repeating your roommates until you're out of pictures and VCWs or out of skype accounts.

Q: Is E-Whoring easy and fast?

A: It does take work but once you get the hang of it you can make money effortlessly.

Q: Why does the PayPal account need to be Canadian?

A: It doesn't however with Canadian PayPal's you can receive money and send it away instantly as soon as you set up the account.

Conclusion.

I hope you guys enjoyed my first tutorial in the E-Whoring section and end up either trying it and or making some money from it! I have an E-Whoring help desk if anyone has any other questions you can post [here](#) and I hope you guys learnt a bit from this! ?

Wow. I didn't know people were still into this.

Quantize - September 8, 2013, 4:03 pm

Holy crap, great guide man! I think everyone here that is new to E-Whoring will benefit a lot from this.

Deep Web - September 8, 2013, 4:14 pm

Nice tutorial Tiki_Turkey i think i've seen you around the e-whoring section before.

Tiki - September 8, 2013, 4:16 pm

Thanks for the nice comments guys.

To deepweb, I think I helped you before with something E-Whoring related. I used to be very active on this section before I got accepted to Legion.

Your not, People just need to learn to read. He was obviously too lazy to even read it but will waste your time asking for help ;_ ; Wish the E-whoring section was a bit more HQ or had more HQ members. <3

Either way great tutorial! Hope it helps some members out.

You should ask these types of questions here <https://hackforums.net/showthread.php?tid=3525969>

However a VPN doesn't even effect skype, you need to set up a proxy to your skype account.

To avoid risk of account closure just make an Indian PayPal, send the Canadian money to the Indian account and withdraw it.

@Everyone else, thanks for the nice comments :)

Great tutorial!

I'm sure many beginners like myself will use this guide very effectively!

Cheers, OP!

ZYZZ BRAHHH - July 14, 2014, 11:36 pm

This is perfect for a starter as myself cannot wait to get started!

My only question would have to be what is a ToS," PayPal then make an invoice and in the ToS."

I am a little bit confused by your question, sorry. Drop back by the help desk or feel free to send a PM my way.

ZYZZ BRAHHH - July 15, 2014, 1:06 am

I do not know what the workd ToS means I know it is a short form for something.

Feel free to ask questions on my help desk. This method is still effective. Of course it wont work on any shit storm saturated site like chat avenue.

RandomGuyOnAComputer - July 17, 2014, 2:53 pm

Tiki thanks for the tutorial. I'll be using some of the tips you had. ?

Tryptadream - December 22, 2014, 10:26 pm

I know this is old, just wanted to say thanks for the guide, many will find it helpful. I was reading over it to get back in the game and DeskPins is a very useful application, so thank you for that. Cheers.

I was wondering how do I improve and know when someone is going to give me stuff and not going to give me stuff, so I don't waste time. Do you know what I mean?

Someone will be very direct when wanting to buy. None of the bullshit like overly completing, bragging how much they have to spend, speaking trash English, etc.

They will get to the point; how much, what payment method, how do I know you're real?

As for the "prove you're real". Never send nudes, send them a live selfie or photoshop a timestamp. If they ask for a specific pose, pray you have it in your pack

Good luck man! You have my skype and can ask future questions there :)
