L33t ---> Ub3r
Approved Proof:Spoiler ([Click to View](#))

[Andy](#)

17
United States of America

Ive helped people with questions when they have them (lately is how to strip xbox live from accounts), Also i am giving away a LT E-book method that i put time and effort into. My most recent is a XBL shop that sells xbox live at discounted prices. the link to my giveaways and shops are below

LT Method ---> <https://hackforums.net/showthread.php?tid=35973259>

XBL Shop ---> <https://hackforums.net/showthread.php?tid=3626133>

i think being upgraded it will draw more people to my giveaways and shops because the thread will

be from a Ub3r member. and ill be able to give rep to people who i think deserve it and ill have a more open rang of repping people +1 +2 +3 and i could -1 -2 -3 people if they need it maybe they scammed me or just hating on other people. Hopefully nobody will have to make me do that. My +3 that I use now is I +1 the person and I make them a sig like this Spoiler ([Click to View](#))
Code [IMG]<https://i.imgur.com/Pyl0Kle.png>[/IMG] i am very active on this site, i normally sit with the laptop when i play Xbox so i am hardly ever away from this site.

I like how everybody is somewhat nice to each other, and mean to people when it's obvious that the people are noobs and just trying to troll or flame the threads. The variety of things on the forum is endless and I am constantly finding new forums each day and love to just explore them. But the main places I like to hang out in is the Marketplace and Xbox live section, I may occasionally head over to the lounge just for a different laid back taste. I love how everything is setup and not to much of an over-powering system. The way the website has grown since I have been here is just extraordinary and it seems to be getting better and better each day even though the Halo section isn't how it used to be. You really can not ask for more than that. i have nothing else to add but thanks for the contest and opportunity to get uB3r.. thank you for the chance to win and good luck to everyone who entered.

I'm on hackforums for over a year now, and I think I contributed enough to the community to deserve an upgrade!

What are some of your contributions to the community?:

I contributed things such as: free Netflix logins, a rat helpdesk (look into my threads, it's very popular!), free ddos attacks, unlocking file-ice downloads, crypting servers and many more things!

Anything else you think needs to be said?:

Very nice contest!

Have you read about the new Illuminati?:

Yes I have, I noticed it in the recruitment section. I may apply in the near future, but for now I'm going to stick to one group and trying to get my first upgrade.

Have you read about our \$1,000 contest?:

Yes I have, I just read about it once it was mentioned in this application. I would rather not test my luck though, good luck to everyone who enters.

Have you visited our SMF before?:

Yes I have. I haven't seen anything that was any interest to me, but if I do see anything, I will be sure to purchase it.

Are you currently a buyer of any products listed in our SMF?:

No I am not currently a buyer, but I may become a buyer in the future.

Describe in detail why you think you should be an upgraded member.:

I have been a member on many forums and all members have said about me is that I am an extremely high quality member. Just so we're clear on this, I'm not saying I'm high quality, I'm just saying what I've been told. I personally don't consider myself high quality, nor low quality because everyone has their moments.

I personally think I deserve to be an upgraded member because I feel that if I was upgraded, I could become familiar with multiple things and meet a lot more people. I'm sure HF has a great community but I have yet to meet anyone that was "chill" I guess you could say. If I was an upgraded member, it would encourage me to open upgrading services(although I don't have the funds at the moment, I'm sure I would learn how to earn money online).

What are some of your contributions to the community?:

I do not have any contributions towards the forum yet, but I do plan on contributing as much as I can.

Anything else you think need be said?:

Nothing really left to say I guess, the application speaks for itself. All I can really say is thank you so much Ridge and the Illuminati for this wonderful giveaway and good luck to everyone who enters.

Yes

Have you read about our \$1,000 contest?:

Yes

Have you visited our SMF before?:

Yes

Are you currently a buyer of any products listed in our SMF?:

No

Describe in detail why you think you should be an upgraded member.:

I think I deserve to be upgraded because of my good forumship, my aiding skills with people in need of help with computers, my high quality posts and responses, as well as my tutorials that are current and my tutorials which are to become real in the future on HF. Also, people will look up to my positive influence around the forum and this can spread among other members across the forum, I also highly encourage high quality posting to other members; and I willing to private message members with questions and comments gladly and willingly. I believe I am mature enough to take the utmost advantage of this L33T upgrade to the maximum extent as in subscribing to every thread I post to, changing my avatar and signature; I also strongly look forward to becoming an ever more active member by joining a positive group on HF to aid those in need in computers. Also I can then join one of the many wonderful groups on HF and support members with more ease. In addition, seeing that I am a member who is constantly active, the L33T status would certainly up my reputation by being seen as a model for good forumship to support our forum. Lastly, being a member closer to the forum only motivates me even further to post tutorials for Windows and share some of my gimmicks and code scripts in the Visual basic section and assist those drowning in computer errors and malfunctions in the White Hat section since I love aiding people in need, especially when I know what I am talking about, most of the time; regular members also tend to look up to those who have a certain status as well and I believe I am a positive influence among regular members.

Describe in detail why you think you should be an upgraded member.: I personally don't think I

deserve to have it, I'm just wanting to become more respected, have more opportunity's as a member. I would like to have more privileges too. I think I deserve it as I never have a bad thing to say about anyone, always say nice things to make people happy. I try and assist members my best, not hacking wise as i'm shit, but Personal Life. I feel like part of the HF family here. Like I said, I haven't got anything to show for my deserving l33t but I sure will if I get upgraded.
