Never seen this method before, but I assume its not exactly private but Its a good method.

This method would be pretty easy to start up just takes a hour or so of startup, and it doesnt require startup money which is awesome.

Thanks vox for the vouch copy and you guys should definitely buy this ebook cuz it would totally be worth the money you could easily make your money back within a day.

Grammar: 9/10

I did not notice any grammatical errors in this ebook.

Originality: 8.5/10

This is a great original ebook I havent seen this method before and I cant wait to start it.

Ease of Use: 9/10

This method is totally easy pretty much anyone could do it, if you cant figure out how to do it you're retarded.

Overall: 9/10

Thank you for the vouch copy and I cant wait to get started on this method it could easily bring you \$300 per day if you really work for it. And it is autopilot after it has been set up.

This method is actually bonkers lol in a good way.

Got it to work for a good while.

and stack £1k within a day.

until ebay caught me, its no big deal though there is a workaround.

those of you in USA should have no problems though.

being in uk they was a wee bit strict on a few things.

I find it odd that for a review they do not really test out the method. That is just my two cents really.

I mean, I could do with a few grammatical errors if a method is truly successful.

He means that it doesn't make sense for someone to "review" an E-Book that they never even tried.

In simpler terms, the review(s) on your Thread is based on what the User read, but if the User never even verified if it works or not and is just basing the Review off what he/she read, what is the point of a Review?

My Words of Wisdom: When people decide to buy an E-Book they are looking for Vouches/Reviews by People who actually made money from the Method(s). Not by People who just finished reading it.

EDIT: Never mind, the person you gave the vouch copy to apparently made money I guess. If that's the case then I too don't know what that 1 guy was talking about, good luck with sales though.

Does this method involve selling beats?

B?STILLE - November 30, 2013, 9:29 am

Awesome! Hopefully now entered into the contest!

Xanex - November 30, 2013, 9:34 am

This probably involve selling beats. By the way... If you made \$700/day why would you be selling an ebook for \$25?

Expels - November 30, 2013, 10:38 am

Looks great, will be purchasing soon, VoxaPro :)

SI?th - November 30, 2013, 10:41 am

Ive seen some ebay methods on here that have got members banned on ebay and on paypal, has anyone had that happen yet? Im in the US. Do i have to ship anything out myself ?? What are the differences between your premium package and the standard? Yes i see theres 7 other methods but do i really need them? Thanks for answering my questions

Nuk3 - December 3, 2013, 7:53 pm

I can vouch for this method it has already made me \$300.
However it is not completely whitehat in my eyes.

S5ean - December 3, 2013, 10:28 pm

Bought the method earlier today, Just havent had the chance to set it all up, but it definitely has potential to make a good amount with it. Will post later with results. It is borderline greyhat but a lot wont even notice

#Derp - December 3, 2013, 10:45 pm

I am interested in this product and look forward to purchasing. I have BTC available, but no other methods atm. Would you be able to arrange acceptance of BTC?

I'm also interested if this involves me having to ship things out myself? This would be considered non-lazy, which doesn't work for my fat ass, especially with the scarce time available these days.

deebster - January 17, 2014, 6:38 am

Hey, I sent you a PM with the details :) if you'd be able to reply that'd be great (Sent it about 2-3 days ago aswell btw)

Just got the e-book, will be testing it out in the next hour or two then will update this post with info.

deebster - January 19, 2014, 6:05 am

Vouch for VoxaDub. Method is set-up and just waiting for the money to roll in

The Yellow King - January 19, 2014, 4:03 pm

Bought the method, just waiting for VoxaDub's PM reply for the method. Then I'll set it up and post results/vouch.

The Yellow King - January 21, 2014, 12:11 am

This is a vouch, I think.

Proof:

WARNING: This method is NOT whitehat, and can result in either small small consequences or serious legal trouble depending on how far you go with this. If you are LQ with what you do, don't buy this. This method does make good money, only if you're willing to take quite the large risk.

deebster - *January 21, 2014, 2:32 am*

Smexy guide, MASSIVE Vouch. Easily made the money back plus \$300 profit. As George said just gotta know what you're doing and the money starts rolling in. Will post proof in a bit when I get back to my PC (On phone atm)
)

Looks like an amazing product VoxaDub. May purchase.

The Yellow King - *February 14, 2014, 11:56 am*

I'm updating my vouch. I definitely do not recommend buying this product. I have LOST about \$250 with this product. I'm not sales thrashing I will post my NEGATIVE PayPal balance here soon. This method is not whitehat at all.

Dunejabes - *August 20, 2017, 5:08 am*

Stumbled on this on an old hdd. I bought this a while back.

Since the forums purges old messages and I didn't save it, can someone kindly pm the password to the rar file.

Thanks in advance.
