I really want to give this a shot, but I hate putting a lot of effort into something you don't know if you'll get. After a few more people enter, then i'll decide if I want to do it.

I like it very much, Can you replace the word 'Course' with 'Method' so it looks like this: "The Best Ewhoring Methods on HF" also on "easy to use" can you add a space? Also the sig itself needs a border, if you can add one pink or something. Thanks !
