L33T Upgrade GiveAway

Instructions:

Make a post in this thread telling us some thing about you. Make it interesting. I'm not asking for some application with a bunch of your threads and stuff that other contests require. I couldn't care less about that.

In 24 hours I will review all the applications and your accounts and pick the winner.

mad - September 13, 2013, 5:09 pm

Hello, I am mad, I deserve to be upgraded because I am HQ and I try to be HQ as possible.

glob - September 13, 2013, 5:09 pm

I like to ask questions without googling first, and steal code and release it on the sub forums. Please give me l33t or I will hack you. Thanks in advance! Vouch!

Pentatonix - September 13, 2013, 5:10 pm

I hope to see some great applications for this great contest. Find the diamonds in the rough. ;)

Cryptic™ - September 13, 2013, 5:12 pm

I'll see if Omni will let me downgrade you to L33T. ?

yep we need more l33t hax0rs on hf.

Kyte - September 13, 2013, 5:15 pm

Ugh, hey, I'm Kyte, I'm pretty new here, and probably don't deserve anything. But, I am defiantly going to be around HF For a long time to come, I also like Pasta.

xSpas - September 13, 2013, 5:27 pm

I think I deserve to be upgraded to L33T because I am always willing to help any member when they PM me. I believe upgrading me to L33T will give me the credibility I need to further assist members. Also if I were to receive an upgrade I would make sure to pay the community back through giveaways and offer general support to everyone :)

Thanks in advanced if i'm chosen. GL to everyone!

extinctRHINO - September 13, 2013, 5:32 pm

Well here goes nothing. I'm 21 years old and have 2 kids. Oldest one is 2 1/2. He's a little brat and gets into everything and anything. It get really frustrating! I work a full time job and manage to live off of little sleep. It's all worth though so I couldn't complain. Well there's something about a little intersting about me. Good luck to all who enter! Thank you for the contest.

UntruthfulHonesty - September 13, 2013, 5:34 pm

I see there is no actual layout for an application... Great! Means I can now express self freely without any limits :3 Well let me introduce you to UntruthfulHonesty, I am currently 15 and live in the middle of the United States of America. Bilingual in both Spanish and English and do not have the capability of making HQ posts... Meaning anyone can try to be High Quality however only a few truly are. I truly do not consider me "HQ" however in all honesty I am an honest and sympathetic person. Not many 15 year olds can say that, but my mind does not consist of the stereotypical teenager, rather an adult that can push a button and magically turn into a teenager. Odd, right? Couple more things about me is that I believe anything is possible no matter what exact possibility that may be; from jumping of a cliff and surviving, to getting hit by a taco shell and dying. Would also like to say that I am certified in Microsoft PowerPoint 2010 and type at an fair speed of 90 words per minute. Currently trying to be a health fanatic by eating as healthy as possible, except on those days where you truly cannot do anything about what you are eating... Why I deserve (want) to be L33T is because being upgraded has many advantages. That is not the most important part, however, I believe in giving out rep to those who deserve it. As a reward to those who benefit the HackForums community. As well as for my own personal benefit to having that exquisite Userbar HF has to offer. Now why I deserve to be an Upgrade member... I try my absolute hardest to benefit the HF community, from making only one tutorial to helping out as many HF members as I can with my 15 year old/adult knowledge. I also try, yes try to treat people with the utmost respect I could possibly give them. You will not regret this if you upgrade me Cryptic, I give you my word. Sorry that this is not a very organized application, yet I did answer both questions regarding this application. Good luck to all who apply and may the one who truly deserves it win this contest. Thank you Cryptic AND Brotherhood for this rare yet illustrious opportunity, wish The Brotherhood a bright future along with whoever wins this contest.

Kind Regards,
UntruthfulHonesty

First off, I'm new to Hackforums so I think that probably won't leave a very good first impression on you. In any case, I'm a Bolivian immigrant that enjoys playing Pokemon, watching old films (1930s-1980s), taking photos with my Nikon D5200 camera, reading, and using Photoshop for photo-editing/graphic design purposes.

Majinferno - September 13, 2013, 5:49 pm

I would rather google something for help then ask someone for assistance. However, despite this I do enjoy helping others with their technological problems even though it back fires more than I would like.

OP, good thing you are doing for people whom don't have the money.

Because there is no formal application, I shall be more free with my thoughts than Miley Cyrus is with her foam fingers. I will flatter you like cheese on a grater, like Miley on Robin Thicke, liked KimK on a black dick. I have been a member here for over 2 years, after Paris came out with her sex tape but before Miley turned lesbian. I am not a thespian, nor am i into art, but sometimes, or often, I do fart. After wading through dozens of applications, as Pentatonix said, you will find a diamond in the rough . I can assure you it will not be me, but with the right temperature, a few thousand years, and a user upgrade I could develop into a diamond in the sky. I'm a nice guy when I'm not hungry. I can twerk like a tween with daddy problems but I don't have the attitude to boot. I'm like a teenage Dr. Seuss, I try to motivate, but sometimes people don't appreciate.

This app is more laden with references to pop culture than Tila Tequila is laden with STDs.

Beilinder - September 14, 2013, 6:25 am

My name is Daniel nad Im 18 years old. I need this l33t upgrade because I can use all the extra perks. Im currently trying to earn as much money as possible to go on a vacation to Italy with my girlfriend. Ive already managed to earn a bit, but a leet would probably help me a lot more. Something interesting about me? Well, Im not the most interesting person in the world. Im a gamer and coder, I work as a waiter and I finished highschool a couple months back.

The most interesting thing about my life for now is that Im joining the army (I live in Israel) for the next 3 years and I really hope not to die there. Im going to an elite squad and yeah I know, sounds like bullshit but I dont care, its true and its hard to explain something like this to someone who doesn't live here.

Hope I get the upgrade.

Hated but Rated ? - September 14, 2013, 7:06 am

I'm Sam.

I have a dog, he is a very small Shih Tzu called gizmo, and his legs are so small they are barely visible, he is basically my only friend.

When I was a young child, I had a fish, he was fat.

I like to eat food while on the computer.

I'm also British, and emigrated to Australia 10 months ago.

I'm pretty good at networking stuff, and will soon be selling an E-book regarding TCP/IP and packet sniffing.

Pretty much all I have to say, I suppose, hopefully I'll win!

H4YDEN - September 14, 2013, 7:08 am

Hello there, my name is Peter Andre and I am sixteen years of age. I've been here for nearly eight months now, and I consider myself a very high-quality member of this community, though I've posted a lot of shit aswell. I'd really love an upgrade, simply because I've contributed alot to this community. I don't have the money to upgrade myself, and as said: I've been here for 8 months. Thanks, Brotherhood! (:

TouhouTard - September 14, 2013, 7:31 am

People here know me as TouhouTard, I am 19 years old. I love to listen music (ranging from classic to metal), play games, do some graphical stuff and watch anime all day long. Currently following a gamedevelopment course at the best college/uni in my region regarding it.

I do not feel like making it an uber long story as it will be tl;dr with all the other posts aswell.

Thanks for reading (:

SIM-1884347 - September 14, 2013, 8:06 am

I see there is no application, wise men wins.

Anyway I wont start all off explaining myself that I am "good" and "best" basically it is just selfish talks that I really hate to write and read. I wouldn't say I deserve L33T, just I will only wish a winner here is really one that really deserves it., I just entered because I simply can't afford to pay due to IRL consequences but one thing I will always thankful will be to this team The Brotherhood for showing up this offer, I also loves this teams photoshop tutorials, it is fascinating that I have my photoshop open whilst writing this.

Side notes:

I'm interested in hactivism, always like to explore new ideas on hacking not to maltreat anyone but to learn how things work around, I take hacking as an art not as an exploit that are used for personal gains. I am also very interested in technology which is really closely related to each other. Recently I have started myself researches on how exploits, vulnerabilities occur and how we are able to overcome anything that are said to be impossible.

Thank you very much.

#Sim - September 14, 2013, 9:06 am

well something interesting huh? well I will tell some stuff from my life.

I was born in Canada in 1996 and in 1998 I moved to Japan with my mom and her boyfriend. I went to school there for many years and I loved it. I learned to speak Japanese, but in 2007 I moved back to Canada. I like watching Anime and talking to other people online. I joined HF a few months and have been wanting to upgrade to L33T for a while but I struggle to make money D:

Lt.General - September 14, 2013, 9:17 am

I have too much time so I'll write another app (other one on pg 2 of this thread). Don't worry though, I'll be quick like sinking sand and then I'll beat it like Jason Russell, you can start your fried minute rice because I'll be gone in 60 seconds. I'm like a teenage Cicero minus the charisma and the speaking skills, a Hitler minus the mass genocide, a Stalin minus labor camps. Omni is selling user upgrades, you're buying them, and I'm paying with my personality. I can see that you're a great salesman, I've seen your long ass VPN sales thread, and Zig Zigar once said that every great salesman buys from a good one.

rajuonline - September 14, 2013, 9:27 am

I want to be Leet as I am a old member of HF and a nice person too. no scam report or no bad things against me happen ever.

I want to be more good when I will be a leet.

I dont have money to buy leet and that is why I participate in this contest, hope I will win and become a upgraded member of HF.

thanks for the giveaway , really a nice contribute to the forum. Thanks Brother.

Kobato - September 14, 2013, 9:55 am

Something interesting about me? Hmm there isn't really much I could tell you. I'm 19 years old from Germany and I got into HF because a friend told me about it and I thought it's really interesting so I signed up. I love to discuss with people about various topics and it's great that here on HF are so many people with different opinions. I really like the community but sometimes I feel like I don't get taken seriously because I'm a regular user. Also it would be awesome to have access to all the things that a upgraded member has. I already made a bit of money through e-Whoring but I safed the money because I'm a bit broke atm so I couldnt buy an upgrade from it. That's why I'm applying here, maybe I get lucky and get my L33t.

Good luck to all other applicants
And @OP: Thanks for doing this Giveaway :)

I really would enjoy this tomorrow is my one year anniversary in the forums.

I work 6 days a week as the greatest waitress yelling at short order chef that ever lived for a very commercial sit down dining restaurant i'll code name crapplebees. I do web development and tattoos in my free time and personally utilize this site alot. Also this morning I woke up and one of my gf's 4 cats pooped in the inside crotch of my work pants.

^thats pretty much me in a nutshell

(Sep 13, 2013 05:27 PM)xSpas Wrote: [CITE](#) I think I deserve to be upgraded to L33T because I am always willing to help any member when they PM me. I believe upgrading me to L33T will give me the credibility I need to further assist members. Also if I were to receive an upgrade I would make sure to pay the community back through giveaways and offer general support to everyone :)

Thanks in advanced if i'm chosen. GL to everyone!
I have chosen xSpas as the winner.

Paid for upgrade and sent him the receipt via PM.

My qualities:

He just got invited to Brotherhood, because he just won this contest, and maybe Cryptic™ was feeling generous and wanted to invite him.
