Thread: [\[TUT\] How to run few skype accounts on the same time on computer](#)

B00B - September 14, 2013, 4:50 am

Go to start and in search bar type "run"

Then open your program files and search for skype.exe

Open run and type your path of skype:

"C:\Program Files (x86)\Skype\Phone\Skype.exe" /secondary

Done! Now you have 2 skype opened at the same time!

You can open how you want times and have more skype accounts open at the same time.

Thanks -B00B

Is a tutorial really necessary for this?

Dranzer - September 14, 2013, 4:52 am

Already knew this but good for people who don't know about this already.

ProtectNull™ - September 14, 2013, 4:52 am

This tutorial has already been posted here. (Correct me if im wrong)
