Source is already leeches lol ? hue heu

DI?E - September 20, 2013, 8:54 am

So I am suppose to get a copy of this so called crypter due to your issues on the crypter I purchased and never received and now your selling the source? What the fuck?

Bat™ - September 20, 2013, 9:11 am

Guys insidious is not the coder. Coder is stefsoft.

He has a scam report open beware guys. Before buying this please read [THIS](#)

Magician. - September 20, 2013, 9:17 am

Please dont mind I seen this thing is leaked in some forum.

The original coder leaked it because insidious stole thr source code, insidious is the biggest skid I've seen.

SkyRider - September 20, 2013, 12:37 pm

dont buy any products from this guy and never trust him

BisualZ - September 20, 2013, 4:31 pm

Big skid, dont buy from him. He doesn't even know how classes and namespaces are working..

Grrr...Trolls - September 28, 2013, 4:43 pm

Is this using the old RunPE? How does it load the EXE after decrypting it?
