Thread: [Zak™'s Guide To Setting Up A Keylogger. Using 541's Keylogger.](#)

**Zak** - April 19, 2010, 5:51 am

## Introduction

Welcome to my guide on how to setup a keylogger. This will take you through setting up a Google Mail account to crypting the file. First of you will need the following files.

[HMO Crypter](#)

[541's Keylogger \\$hareCash](#)

[541's Keylogger MediaFire](#)

To get the MediaFire link you will have to sign up to his site.

## Google Mail Setup

[Sign up to Google Mail](#)

To setup a Google Mail your going to need to click the link above then fill out all the information needed.

Spoiler [\(Click to View\)](#)

[IMG]http://i43.[censored].com/2wgsmcn.png[/IMG]

Once your information is filled in. Press the "I accept. Create my account" button.

## 541's Keylogger

Once you have downloaded 541's keylogger, extract it with [WinRar](#) to your desktop.

Spoiler [\(Click to View\)](#)

[img]http://i39.[censored].com/euewxj.png[/img]

Now go to your desktop and run "Keylogger Builder v4.0 With Dotbar.exe"

Spoiler [\(Click to View\)](#)

[IMG]http://i43.[censored].com/111qiw1.png[/IMG]

Now open up the info tab, and fill in you GoogleMail account information, then if you want to use an FTP fill in the details.

Spoiler [\(Click to View\)](#)

[IMG]http://i39.[censored].com/r75dlj.png[/IMG]

Now go through the Keylogger, and activate any options you want. There are lots to pick from.

Now got to the Build tab, choose a file name. Set a log interval time. And Build Keylogger

Spoiler [\(Click to View\)](#)

[IMG]http://i41.[censored].com/r94ena.png[/IMG]

Now go to the Assembly information and enter this information

Spoiler [\(Click to View\)](#)

### HMO Crypter

Extract the Crypter to your desktop, open the file. Select your file. And crypt you keylogger.

Spoiler ([Click to View](#))

[IMG][http://i42.\[censored\].com/inqwx1.png](http://i42.[censored].com/inqwx1.png)[/IMG]

Thank you for reading my tutorial, I hope you enjoyed it. And learned how to set up a keylogger.  
Now you have a FUD keylogger.

### Credits

[Zak™](#) - I wrote this whole tutorial on my own, no leaching :P

[5416339](#) - He gave me his Debug so I could get screenshots, and make this tutorial.  
marioman of HMO - Made the Crypter.

**5416339** - April 19, 2010, 6:04 am

Excellent Tutorial for my latest Keylogger at <https://hackforums.net/showthread.php?tid=375410> lol..  
A+ !

**Zak** - April 19, 2010, 6:05 am

Thank you 541 for letting me beta test your new keylogger. :P

**z4z000** - April 19, 2010, 7:17 am

Very nice man, keep up the good work. 5 stars!

**Pr0toType** - April 19, 2010, 7:34 am

Great tutorial for newbs :P!

**Grieve™** - April 19, 2010, 8:57 am

thanks for the tutorial man!

**Zak** - April 19, 2010, 8:59 am

No problem. Just helping out fellow HF members. :P

**holystevens** - April 19, 2010, 9:52 am

can you send this to another computer?

**Zak** - April 19, 2010, 9:54 am

Yes, I will be making another guide on how to spread soon. Just upload to a site like  
<http://www.speedyshare.com> and then send to your victims :P

**-mothered-** - April 19, 2010, 2:25 pm

I like the fact that you've not only elaborated with clear documentation, but also used Illustrations as a reference point.

Very good Indeed mate.

Cheers :)

**Zak** - April 19, 2010, 3:24 pm

I'm very glad you like it :P Makes it all worth while.

**fillme\_88** - April 20, 2010, 2:26 am

what is the use of this doing that can u clearly explain to me i mean it purpose

**Fox777** - April 20, 2010, 3:13 am

i cant download the keylogger. i have to do all this shit and it leads me to nothing

**sh0bhit** - April 20, 2010, 4:00 am

ahnnn nice their are too many keylogger tut on HF

**Scotty™** - April 20, 2010, 4:30 am

thanks alot dude!!!!!!!!!! YOU ARE AWSOME!!! if i could +rep you i would!

**iPour** - April 20, 2010, 5:11 am

Well 541 keylogger's gui is superb by the .net tool bar :D

**\$Xeon\$** - April 20, 2010, 7:44 am

Thx,nice tut, gonna try

**Zak** - April 20, 2010, 8:56 am

Yeah, he spent some of time on the GUI. When he send me the beta, I was like man. I <3 the GUI.

**boomer678** - April 20, 2010, 8:59 am

Nice guide, good work.

**Lotos** - April 20, 2010, 9:02 am

541's keylogger Mediafire link is <https://hackforums.net/showthread.php?tid=327>. Is it Your mistake? Or my browser fail?

**Zak** - April 20, 2010, 9:29 am

EDIT: I just realised that :P. Now changed, enjoy!

**Lotos** - April 20, 2010, 11:23 am

(Apr 20, 2010 09:29 AM)Zak™ Wrote: [\[CITE\]](#) EDIT: I just realised that :P. Now changed, enjoy!Great, keep the good sharing up dude. ?

**Anonamoose** - April 20, 2010, 8:28 pm

Nice tut man helped alot

**-mothered-** - April 20, 2010, 8:31 pm

(Apr 19, 2010 03:24 PM)Zak™ Wrote: [\[CITE\]](#) I'm very glad you like it :P Makes it all worth while. You're most welcome there mate. Keep up the good work :)

**wiza** - April 21, 2010, 12:28 am

Nice release  
it work

**AcID ©** - April 21, 2010, 1:17 am

Great Tut Great job :D

**Zak** - April 21, 2010, 8:30 am

Thank for all your support guys! :P

**korbi92** - April 21, 2010, 8:47 am

Zack im just a beginner in hacking still i want to learn if you can explain me the different options of this keylogger i just downloaded, and the ways how to use them i would just be grateful!

The instructions were very clear??

**Zak** - April 21, 2010, 9:17 am

@Korbi92, The other options are thing's for USB spread. I wouldn't advise using the USB spread though as it can case problem with the keylogger. Keep it simple, just enable thing's like the keystealer. And disabling the taskmanager.

**symphonyx** - April 21, 2010, 7:31 pm

This works pretty well HOWEVER even after crypting the file, if I click on the exe properties, it says "crypterstub.exe" as its original filename... Any ways to change that?

**biente** - April 24, 2010, 2:43 am

bumpoooooooooooooooooooooooooooooooooooo

**marioguy** - April 24, 2010, 4:11 am

Note: I'm marioman from HMO (hard to believe, isn't it), and I just wanted to say a FUD stub is coming soon...free or should sell? the person who asked about the original filename, use the clone PE info in the crypter, not the keylogger, as those properties are lost when crypted. Also, you could always use reshack as a final method...

**netdahee** - April 27, 2010, 12:50 pm

Thank you for the tut it was very well done.

**Aersol** - April 27, 2010, 6:04 pm

keep up the good workk

Not FUD

anything i can do to make it FUD or am i doin somethin wrong

**Zak** - April 28, 2010, 3:01 pm

Well, you can use my crypter. :P

**sickone** - August 4, 2010, 11:09 am

My Anti-Virus says that it is a Trojan , is it safe to open? the keylogger builder file...

**Cherokeekid8** - August 17, 2010, 2:01 pm

Uhm when I go to click on the "HMO Crypter" it redirects me to a page that says, "This webpage denied access to this page"

Uhm. help?

**Moneyhacker** - August 18, 2010, 4:55 am

[IMG]http://i36.[censored].com/10xtxxw.png[/IMG]

?? whats that :o ....

**fuzz182** - August 25, 2010, 9:22 am

i keep getting unhandled exception when i build the keylogger.

**Chittem** - September 2, 2010, 9:09 pm

very nice tutorial. i already use the Desi Logger, but just reading amongst threads and yours looked interesting :)

**Josh 'dragonkai' Art** - September 17, 2010, 11:25 pm

Cannot get the Disassembler Lib.dll. I extracted everything but everytime I extract that file it will appear for a second or two and then Poof it disappears. Any clue what I'm doing wrong?

**MoonWalker** - September 18, 2010, 1:38 am

thanks for this, sounds interesting. Going to check it right now

**anrandom** - September 23, 2010, 5:30 pm

clear and simple wish all tuts like this thx

**luigiman** - March 5, 2011, 4:46 pm

Old Thread dunno if your still alive but, I am trying to use this do you think your could refer me to something else if not this?

**War God** - March 6, 2011, 2:49 am

nice tut dude..hope it helps me !!

**pixemanga22** - March 19, 2011, 3:12 pm

I recommend it to everyone! ,Thank you for this program has exceeded my expectations  
Merci beaucoup !this program has exceeded my expectations

**Žerø©** - March 19, 2011, 3:45 pm

Merci beaucoup !this program has exceeded my expectations  
Thanks for reviving this thread, with a Keylogger, and crypter that would likely get detected by everything.

**MirrorDude** - March 19, 2011, 9:42 pm

mines is better (Using Grieve Logger V2.3), completely noob friendly and with PICs too!!!

<https://hackforums.net/showthread.php?tid=1135256>

check it out, Grieve Logger is almost FUD...!!!

**Mr.thinker** - March 20, 2011, 2:29 am

Great Tut !!

Thx For Sharing :)

**stupefyyy** - March 22, 2011, 9:00 am

Many thanks for the tutorial mate...

**Psy™** - March 24, 2011, 4:16 pm

the server part is the part i spread right?

**Begginer** - April 6, 2011, 3:44 am

CAn you please update the photos?  
I cannot view them

**will.sin** - April 8, 2011, 8:24 pm

Thanks for the tut ill be trying this out later :)

**ngit01** - April 8, 2011, 9:20 pm

this will help lot of peolple setting up there keylogger..

**wolffie** - May 2, 2011, 7:46 am

yea nice zak nice keylog by ur zelf ;)

eset smart says its keylogger

**hacker536** - June 1, 2011, 12:57 am

great just great i will be definitely be using this tut!

**colombotiger** - May 29, 2015, 9:01 pm

thanks for ur post please has any 1 confirm it? please let us know
