Guys i need to know how can i break a Winzip password
There is a software inside the zip that is encrypted with password
But the surveys are not geeting it done ,as Adscence media web pages dont open
Can any 1 help me out?

Try using one of these zip password cracking softwares from that site:
<http://www.top5freeware.com/zip-file-password-cracker-for-windows>

(I never used them, but maybe they'll work).
