where's the error ? ./ thank you for helping guys

Rackzen - September 18, 2013, 3:52 am

i think you have to put the specific login page :)

thank you sir ! somebody else maybe? i give 2\$ for a valid config

skunks - September 19, 2013, 5:11 am

Are you still need it pm me

I can make for sentry config too
