It looks nice, but i dont like the size

tigerz09 - September 23, 2013, 11:29 am

I just love all of them!! 9.5/10 really nice. I hope you don't mind if I use any of these for my project work :p!

Wow, I really like these man. Nice job.

IBunkerZz - September 23, 2013, 2:36 pm

They look awesome! Keep up the good work!

Not much of a fan, look basic to me. Sorry.

You've got some nice atmospheres going, which is a hard thing to get but you need to push yourself some, these all look like cookie cutter sigs

i think you should zoom out a little and show some more background it would add so much to these also adding more shapes or figures to the foreground/ background could really help

there just really lacking depth

Bad Meets Evil - September 23, 2013, 8:14 pm

Ditch the borders.

Create more depth.

Do more visible work to the sig, most just look like photo edits.

Great signatures dude i will rate them 9/10 they looks so good.

Obli - September 24, 2013, 11:21 am

They do not look good to be honest.

Alright, there is the big deal. Making a tag is essentially hard because it is quite difficult to find colors that do match.

Most of your tags are colorless, they do not have anything good in them, just regular stuff that get made over and over again.

Can you perhaps show us a version with colors?

Waxy - September 24, 2013, 11:22 am

Just seems to me like you have took some images and edited them by adding some overlay's and cc etc. Not much here

Boxie - September 24, 2013, 11:57 am

you have some nice tags . looking really good mate :D
