Thread: [\[C++\] \[Source\] Game hacking Framework \[BTC\] ZEDFramework \[EXTRAS\]](#)

MicroCoil - September 24, 2013, 9:19 am

ZEDFramework

Im selling my Framework I have used since I made it in February 2013 to make a sell WarZ game hacks

Also Source code is in full, they are all detected by anti-cheat but easy to update, warZED requires PB bypass

What this package includes:ZEDframework main source [February]

ZEDframework [updated version August]

WarZED source [Detected]

5 WarZ emulator hack source

PayDay 2 hack source

Loadout hack source

ZEDject [injector source]

Looking for: 0.4078 \$50 based on preev.com

Vaxorr - September 24, 2013, 10:16 am

vouch for AGNZ legit memebr ,the framework seems intersting i would suggest this for gaming fans

pwned™ - September 24, 2013, 10:36 am

Looks nice, ill think about buying it

MicroCoil - September 24, 2013, 11:57 am

Ive decided to be selling 5 copies.

MicroCoil - November 5, 2013, 10:12 am

Im still selling this, If anyone is intrested in make game hacks and selling them like i have, this is a great pack

SpheX™ - November 5, 2013, 10:18 am

Will you teach how to make it undetected ?

MicroCoil - November 5, 2013, 10:53 am

I don't know how to make it undetected to punk buster, Witch is why I'm selling it.

Even if i did, I cba to make it undetected every 3 days when it becomes detected.

the framework will work with other games. I just targeted warz/emulators. ATM im working on a nether hack

(\$LOOP) - November 6, 2013, 5:03 pm

Watch out guys, he's selling a public item, you can get it 100% free on google.

MicroCoil - November 6, 2013, 7:27 pm

No, you didn't.

I saw the source code online free, it was on like the 10th page of google or some shit.
