Beilinder - September 26, 2013, 1:25 pm

Hey Hackforums.

Im offering you 3 Yahoo answers which will be written by my own personal account, manually, and I will make 1 of the answers the "Best answer".

For anyone who doesn't know, "Best Answer" is the first answer that shows on the question page. This can bring a hell lot of traffic to your link and it also generates awesome backlinks.

Features

All of my answers will be related to your website or keywords.

I will confirm 1 best answer! It may take up to a week to complete.

Answers will not be deleted. If they does, simply tell me and I will replace them.

Im using my Level 2 Yahoo account for answering. I will also use my other high level accounts for answering. All of the accounts are HQ.

Yahoo answers have a great PR and A LOT of traffic.

Yahoo Answers will give you some high quality backlinks aswell. You can drive targeted traffic that relates to your keywords.

Requirements

All I need is your Website.

Notes

I can do more answers, and choose more best answers. For example, double the offer which makes 6 answers and 2 best answers. If you're interested, PM me.

Price

I will do this service for 5\$.

I only accept PayPal.

TOS

Spoiler ([Click to View](#))

- If I don't trust you for some reason, I dont have to accept your order.
- You may not chargeback. If you do, a scam report will be opened and you WILL lose the dispute.
