(Dec 23, 2012 03:38 AM)H3X4G0N Wrote: [\[CITE\]](#) Great keylogger! Absolutely wonderful, I'm currently keylogging myself to test the keylogger. It's great how the logger runs as taskmgr, you'd never expect it!

Built-in file pumper is also extraordinary.

Best part I'd say is no portforwarding, just setup an FTP account and you're set!

Homi is super HQ, helped me out with everything I needed.

(Dec 27, 2012 04:08 AM)Danish Donut Wrote: [\[CITE\]](#) This guys deserves a huge thanks, i didn't know anything about ftp he explained everything i wouldn't lie if i said he had spend more than an our helping a complete brainless noob. Im really really greatfull the keylogger works no problem. It's just perfect, and also homi. Homi is a true high quality member, i kept sending him message's like "I don't understand", "How do you do that".

Im really really greatfull huge vouche

Vouch for Homi has a really nice product, very easy to use and quite cheap.

It will stay FUD for quite a long time and after that you can use a crypter if you like.

?XilluX - September 29, 2013, 3:08 am

I had the luck to test this program and I am really impressed. It is a really stable and well working keylogger and this for only 10\$!

FederalReserveOSRS - September 29, 2013, 7:56 am

Huge vouch, this man does not only delover a awesome product, the support is nothing less than fantastic, i bought his keylogger at the very first version and i was noob. He wrote a whole guide about keylogging and how to set up fps just for me. Homi is defently worth trusting just as well as his product. Huge vouch :)
