Thread: [Comments design for you \[FREE\]](#)

theAbsolute - *October 3, 2013, 2:00 pm*

My newest creation, and I would like to share it with you.

It's design for comments and not the fully coded comment system, just to be clear.
So you will get HTML, CSS and JS files.

I have added also character counter when you type your comment, and also this little arrow to toggle comments...check the preview:

I like it ! Might use it for my blog :)

Bluffer - *October 3, 2013, 11:44 pm*

Cool script!

I might add it to something of mine in the future!

Megamon - *October 4, 2013, 1:35 am*

the left bottom arrow i think should be in the bottom center.

And the box you make the posts the colors ain't right ain't quite fit well over there!

Truth - *October 4, 2013, 1:43 am*

Very nice work. I may use this in the future!

theAbsolute - *October 4, 2013, 11:48 am*

Thank you all, I'm glad if you can have use of this. Check my other templates too :)

sarvsav - *October 4, 2013, 12:16 pm*

I would love to use this comment style. Amazing work done by you..!
