removed sorry guys..

Another time

Zapu - October 3, 2013, 3:19 pm

Beautifully written tutorial. Will bookmark this for future use.

Reptilian - October 4, 2013, 2:19 am

Looks like you know your shit. Good tutorial although I already knew all of this. I have a ton of WPS routers around me, but I never managed to crack one because they ALL have WPS-lock. Even with a time-out it will lock. It will take a few weeks for me to crack a network like that.

Mad76e - October 4, 2013, 10:46 am

Did some minor changes

Your welcome, i hope it will help.

TIP: Read them all from part 1 to part 4

Bat™ - October 19, 2013, 6:31 am

Wow bro, this is the best series of TUT I have seen here on hf till now.

Thanks for the tut :)
