"The fourth true ancestor" is a legendarily strong vampire that shouldn't exist. Accompanied by the 12 "gun-beasts," this phantom vampire is said to have appeared in Japan. In order to find and kill this "fourth true ancestor," the government and the Lion King Organization order the dispatch of attack mages called "sword-maidens." For some reason an apprentice named Yukina Himeragi was chosen for the task. Wielding the strongest spiritual spear, Yukina comes to the special demon district Itokami City. There she encounters Kojou Akatsuki and learns the true nature of the "fourth true ancestor."

I guess this show is bad, seeing how nobody talked about it.

Not true at all... A lot of people posted in the Kill thread and that anime is nothing but low budget garbage that is getting praise for some unknown reason. ?

Haha i kind of agree with this. I have seen both, and this is better than kill la kill. Many other new anime that came this fall is better than kill la kill, and im a guy that loves action.

Not true at all either. Kill la Kill is getting more attention because people have higher expectations for the Gurren Lagann dream team than an adaptation of a shitty light novel.

Just saying.

Well after one episode you can see they failed. Shitty animation style with absolutely worthlessly fast story that has no solid character development. The past and expectations do not equal a good show, if you write a wonderful novel that everyone loves and then write another one that is shit it doesn't automatically become better because of your previous unrelated work. ?

Lol, calm down guys. Just finished watching the first episodes for Kill la Kill and Strike the Blood and both were really good in their own aspects. It all comes down to preference.

zomgasd - October 5, 2013, 2:50 pm

A decent start, I'm going to go ahead and read the light novel.

HellsCrypt - October 6, 2013, 7:06 pm

I saw the first episode and I think this might be the anime i'll stick too this season.

Selist - October 7, 2013, 2:04 pm

I watched it and I put it on my animes to watch each week the first episode was good

Purefect - October 9, 2013, 12:36 am

I really hope the plot develops a bit more, because at the moment it's not doing itself justice, that's for sure.

It has a lot of potential, I haven't read up on it or anything but from what they've given us I'm hoping it turns out the way I plan for it.

zomgasd - October 18, 2013, 3:34 pm

Episodes 3 ending though, holy shit.

Strafola - October 18, 2013, 7:42 pm

Show is getting 100x better than the protagonists just walking and talking all the time. Lots of action now.

TheDevilGod - October 18, 2013, 7:57 pm

Omg-these cliffhangers; why?! :(

Now I have to wait another week, fuuuu-!

Agreed.

Spoiler [\(Click to View\)](#) I mean what the hell, end of the third episode and he's got his head cut off to save her? I'm 100% sure he is just gonna reform or something to come back to life because really, The Legendary Fourth Progenitor and he dies like that? (Not to mention he is the MC) I just hope to

see Kojou kick some ass soon.

Venny503 - *October 20, 2013, 6:20 pm*

It looks like a nice show, and the cliffhangers are bearable.

Spoiler ([Click to View](#)) I bet that Yukina's gonna inherit Kojou's powers.

I don't know which episode, but it also says he's also immortal.

Totally forgot about that, but still he needs to do something to sew it back on or something like that. Even if your immortal you cant do much without an attached head.

I like this anime. And also Kill La Kill. There both good shows. I have crunchyroll and love to watch them both.
