If you could make me a YouTube background that says "Fryon," as in this image:

<https://i.imgur.com/ynpf0L9.png>, that would be awesome. If you can, try to replicate the text as much as possible or if you have another font that you think looks better, please go for it! Also, this is the image used in the background:

Thanks so much in advance,

I would love for you to turn my band into pixel art. It doesn't need to be animated or anything like that, but I do need 4 50x50 pixel art versions of my band members. No text or subtext is needed and no specific color scheme. I love the look of these pixel character and I would like something very similar: http://cdn0.fiverrcdn.com/photos/778842/medium/fiverrImage_gig001.jpg?1382407276

Mr.Magnificent - February 27, 2015, 12:53 am

Sir,

Do you still do this ??

Thank you in advance

FreeAnneFrank - February 27, 2015, 1:02 am

I'd love a background for my computer in HD. It should have some badass effects, contain CS:GO related stuff, like a Desert Eagle and/or a Taser and should have the text Wesai somewhere. If needed I can pay.
