Opinions? I just got watching this, and I must say, it's pretty damn sick. Who's ready for X&Y? Also, if you need a download or an upload of the Englishs subs, feel free to ask.

I loved it and loved the feeling of it being a game and not an anime ... kind of felt like a game tutorial lol ... the only reason they had this was to introduce mega evolution XD

They had a reason to realize the mega evolutions. But they also kind of summarized the manga somewhat.

Elite Four was alright. It was a pretty good anime though.

I always love it when they make specials based on the game. Although this may be because I am biased against Ash.

?????? - October 7, 2013, 11:54 pm

This is probably the best special ever. I really feel this is what the main anime series should have been like.

Watched it 2 days back, was awesome. Especially the ending, didn't really see that coming. Find it cool to see how my Pokemon adventure was summarized.
