Just bought two codes off him, no problems!

I wanted to buy 2 codes off of him but he wouldn't sell me because I didn't want to use TV. I guess some people just can't trust anyone. codes weren't even for me.

Dranzer - October 11, 2013, 4:34 pm

I have 1 open scam report because the user pm'd me about a refund and when I agreed to that he disappeared and hasn't been on since, and the other kid that has a scam report on me is banned. He charges back lol it was a fake scam report. hence why he is banned
