Thread: [\[VB.net\] JuNk Code Generator \[SOURCE + REL\] - Generates If, While, For, Try, Dim... - For FUDing ur Stubs](#)

jaikrishna - April 21, 2010, 6:48 pm

Hi Guys,

I could not find any good Junk code generator on HF.

I had been working on a Junk Code generator that generates If, While, For, Try, Dim...

I completed the project. Just sharing it with source.

No errors arise under any circumstance. Forget regenerating.?
The Generator has options for the name of Sub, and Number of Subs.

Sample of Junk: <http://pastebin.com/W9M97gRi>

just wanna say thanks for contributing..
and thread rating added for thisAnd For you, THANKS A LOT.
Really, there are many leechers than contributors.

I've seen no JunkGens on HF.
But, Within hours of my thread, Another arised.
I don't say that was leeched. But,.....
Anyway, THANKS again

StRaXxD - April 21, 2010, 11:18 pm

Great share....Downloaded....Thank you ;)

I also like your junk code from last thread....it was just too big :S

Sikandar - April 21, 2010, 11:19 pm

deathader posted a junk code generator back then
but he transferred it to his website because of leechers

Vincenzo? - April 21, 2010, 11:21 pm

Nice coding dude keep up the share and I thank you for releasing.

jaikrishna - April 21, 2010, 11:25 pm

(Apr 21, 2010 11:18 PM)StRaXxD Wrote: [\[CITE\]](#) Great share....Downloaded....Thank you ;)

Are u kidding?

jaikrishna - April 23, 2010, 5:03 am
HI friends,
Thanks all of you for commenting.
The previous version was a success. ?
MediaFire reported nearly 50 downloads.

And I also got some +reps from Sikandar and Backdoor.CCT.dll - THANKS A LOT, MEN.?
I DID THIS FOR YOU.?

NEW IMPROVED VERSION WITH BUG FIXES

New features:
1. Added "Append To VB File" Feature
2. Automatically Creates a module into which the Junk code is put in.
3. Added "MsgBox" Code also

Download Source + Exe: [MediaFire Link](#)
Another PasteBin Sample: <http://pastebin.com/6M5hPDKB>

ENJOY The release?

Thor - April 23, 2010, 5:09 am
Thank you very much, and thanks for not using \$harecash.

JIMP - April 23, 2010, 7:39 pm
cool.I am gonna download this.I really need this.

The Old Warrior - April 23, 2010, 8:40 pm
Really Nice Release.

I was wondering if there is one for VB6 Also?

jaikrishna - April 23, 2010, 9:08 pm

(Apr 23, 2010 08:40 PM)thugsndanation Wrote: [\[CITE\]](#) Really Nice Release.

I was wondering if there is one for VB6 Also?For VB6, You can best select Bunn's USG.

It does give a lot of junk code. You could also search HH. There are a lot for Vb6 there.

The Old Warrior - April 23, 2010, 10:06 pm

Hey,

All your dots(.) are substituted by comma(,)

WHY??

texeon - April 24, 2010, 7:02 pm

Thx can't wait to try

RUS7Y - April 24, 2010, 9:18 pm

Thanks for the nice share :)

TehShrink - April 24, 2010, 11:24 pm

Good share, thank you for it, and especially for sharing the source too.

Mark Webber's B1tch - April 24, 2010, 11:37 pm

This junk code generator will come in handy!

Thanks for the share.

Bitwin - April 24, 2010, 11:52 pm

(Apr 24, 2010 06:17 PM)jaikrishna Wrote: [\[CITE\]](#) Hey,
All your dots(.) are substituted by comma(,) WHY??

Oh I might know it now, it may be because in Norway we use commas in numbers and not dots, so if I change my settings it might work ?

Edit:

Yeah, when I changed region settings to use American settings it worked

jaikrishna - April 25, 2010, 3:32 am

(Apr 24, 2010 11:52 PM)C00k13 Wrote: [\[CITE\]](#) Oh I might know it now, it may be because in Norway we use commas in numbers and not dots, so if I change my settings it might work ?

OneTXxL - February 17, 2012, 3:18 pm

thank you very much is very good post

sugias - September 10, 2012, 6:50 am

Thanks a lot.It's not usual seeing free sources here at HF ...

itachixd - September 10, 2012, 8:00 am

This feature is great, you can add trash code to project without crash your app, best to bypass sections detects in your app.

Washi - September 10, 2012, 8:10 am

I actually don't see why this is useful.

This won't give protection to your application

This won't FUD your application

The random variable names won't be stored in the assembly so when you open the application in a decompiler, it will name those variables to names like str1, num1, exception1.

The compiler will optimize the junk so parts of the junk won't be stored in the application at all (such as if statements like If 0.413242356 = 0.13253 Then will be compiled as something like flag = 0, If flag = nothing Then)

I tested the application and it takes ages to make 1 single sub.

All those decimal numbers have got a "," instead of a "." which will give a bunch of errors.

<http://screensnapr.com/v/ASihT7.jpg>

1337x1337 - September 10, 2012, 8:30 am

Looks nice good job!

Keep on contributing things.

(Sep 10, 2012 08:10 AM)TheUnknownProgrammer Wrote: [\[CITE\]](#) I actually don't see why this is useful.

This won't give protection to your application

This won't FUD your application

The random variable names won't be stored in the assembly so when you open the application in a decompiler, it will name those variables to names like str1, num1, exception1.

The compiler will optimize the junk so parts of the junk won't be stored in the application at all (such as if statements like If 0.413242356 = 0.13253 Then will be compiled as something like flag = 0, If flag = nothing Then)

I tested the application and it takes ages to make 1 single sub.

All those decimal numbers have got a "," instead of a "." which will give a bunch of errors.

<http://screensnapr.com/v/ASihT7.jpg>

It is correct you need modified your IF to compare to numbers, if is diferent this part of code will not write in the file by the compiler will exclue this code.

Khaos Theory - September 10, 2012, 2:18 pm

Junk code is worthless in every single way shape and form. If your lucky you may drop 1 detection at the most. Learn to code properly instead of having to use these alternative methods.

wow you just replied to a 2 year's old THREAD, are you fucking blind? can't you just get your stuff and not reply?

hunters - January 3, 2015, 11:45 am

you works very well bro. don't listen unvalueable talks. good work... keep it up.

StalkerDz - February 11, 2015, 11:15 am

THANKS dud you are the best keep up

L0v3craft - May 10, 2015, 7:45 pm

Thank you this is great !

N3w8i3H4ck3r - May 11, 2015, 5:22 am

This is really great, made one just like this, it generates more complicated code than yours, but really, this is why i don't realase any of my programs here.

1 Post leechers that don't even leave a comment...

HF in a nutshell

ElementalTree - May 12, 2015, 7:47 am

ahem thread is 5 years old

hiepdv - May 12, 2015, 8:51 pm

Thanks so much! It's quite good and I like it.
