Thread: [Rename Dubstep forum to EDM](#)

Mr.V - October 9, 2013, 4:43 pm

As an avid lounge in the dubstep forum here on HF, I've noticed that it's primarily EDM. If you take a look at the posts, while a lot are dubstep, a large portion are also house, electro, and etc. I don't think that EDM tracks outside of the dubstep forum actually get any recognition. It would be a lot easier for the Dubstep forum to be renamed EDM, so it would officially classify all the genres in EDM.

Just an idea, what do you guys think?

We don't bash your music, why the fuck are you doing it to EDM? Your post is completely irrelevant to the post and your opinion is worthless.

Zen???????????????? - October 9, 2013, 5:07 pm

What is EDM anyways?

Care to explain?

It stands for Electronic Dance Music, and represents all of electronic music. <3 EDM.

I agree with you! EDM or Electronic Music. This would promote more of the genres ie Trance, Electro House, Progressive (many others) which would create more posts. And more posts mean more traffic. And more traffic makes Omni a happy guy/admin !

Also,

ps-*whispers*shameless plug for music production section=p

You have no idea what you're talking about. EDM is a class of genres you fucking idiot. EDM includes house, trance, dubstep, some trap, progressive, basically anything electronically made. There is no "mixed together".

Quit bashing on music because you don't like something.

You haven't probably heard the load of EDM crap produced recently ..no creativity to the point that thy produce trap and electro together or house:brostep to make an EDM Trakc , and i'm fucking idiot ? .. yeah right .

when you start making music and start knowing the 'jargon' of it , you'll understand a lot of things .

Loomaanaatii - October 9, 2013, 6:50 pm

It would be a good idea to rename it. Although I'm not a dubstep person.

Thanks for the support.

As for breakbot, I'm done replying to you. You have absolutely no idea what you're talking about.

S?vant - October 10, 2013, 2:40 am

I support this 100%. I think it's a great idea!

muzzy. - October 10, 2013, 5:27 am

Definitely. It gives leeway to talk about every genre of electronic music, and not just one :)

r1seN- - October 10, 2013, 5:43 am

Breakbot fuck off scrub.

I would like this change as well, the dubstep forum is full of other music genres not only dubstep.

Can you state sources or are you just saying something that someone else said paraphrased badly?

You seem like you dont know much about EDM or making music, also you might be intoxicated. Sleep it of, and then research the variety EDM has to offer. Jus sayin'

Broda - October 10, 2013, 6:16 am

Agreed, hopefully they will change the name.

Boing - October 10, 2013, 6:18 am

Agreed, I'd like to see it changed to EDM too.

Digital™ - October 10, 2013, 6:19 am

I also agree. EDM should be the name. Because dub is most effective when it comes to the break.

Mr.V - October 10, 2013, 3:15 pm

Glad to see so many supporting the suggestion, I think it would be a great idea.

Revamp - October 19, 2013, 11:30 am

Is this going to happen or not...?!?! I really like the idea.

I'm also wondering the same, I think if we should get a poll in the Dubstep section to see more support?

Kaleb - October 19, 2013, 12:24 pm

Dubstep forum should be changed to edm haha, dubstep gets boring

Tony Stark - October 19, 2013, 2:24 pm

Yes, it should be renamed to EDM. As that's what is primarily discussed.

ep1capple - October 19, 2013, 2:26 pm

I don't know why it wasn't named EDM in the first place...

iDiv - October 19, 2013, 2:29 pm

I don't support this. Bass music would be a more fitting section; otherwise it would be filled with Avicii/Hardwell posts..

(Oct 19, 2013 02:26 PM)epicapple Wrote: [\[CITE\]](#) I don't know why it wasn't named EDM in the first place...

Because Dubstep was a lot more popular then than it is now.

FunkyStepz - October 19, 2013, 2:32 pm

I think this is a great Idea as it represents all form or electronic music

Vector Dynamics - October 19, 2013, 3:29 pm

Should be changed to Electric Music or similar, since I don't think a lot of people know what "EDM" stands for (well I didn't .-.)

Mr.V - October 20, 2013, 9:06 pm

Glad we're receiving so much support, hopefully it will actually get implemented!

I completely support breakbot in this one, although i produce some dubstep. But its true on some tracks.

Omniscient - *October 21, 2013, 1:48 am*

Meh. I edited it a bit for you. Thanks.
