I had this problem too but it will eventually...

Just a black screen with a bunch of nonsense rambling on it about who pwned what with the stuff and the thing etc etc etc.

<https://gyazo.com/e6e851748a46bf9b9a795e7b65de8b50.png> Domain jacked, DNS edited. Those pesky PaK CyB3r Eaglez 0rPh@n\$ are at it again... ?

Ways - October 10, 2013, 3:30 pm

Not really impressed

Anyone know what's the song name?

I think it's DNS HIJACKING???

or other dns hacking ? ?

Dr41DeY - October 11, 2013, 7:17 am

This is very nice! :)

I already knew this because I know "1337".
