Well uh if I could get some sort of feedback, it'd be great.

Truth - October 12, 2013, 7:05 pm

Get off this thread for fuck sakes.

They look alright AV, not your best. The black and white effect looks nice on that photo but the first photo looks really unappealing.

It looks alright. You have a nice area to walk in. I have to walk on the streets :/

Actually, no.

It was taken with a Canon EOS 3D.

Shame on me for knowing nothing about photography, eh?

Now if only there was a way to get better without ever being bad at something. ?

Jaxon - October 12, 2013, 7:23 pm

I like the 3rd one.

For some reason the resolution looks a bit sloppy. Not 100% in focus. Most of the pictures are pretty basic, I do like how you centered the sun in the first one. If you have any questions I can help you. I do a lot of photography.

Haha, I'll gladly take you up on that offer. ;)

I'll message you the next time I take some photos!

lol, everybody who posts photos isn't me. Considering the gap in our experience I would think you would notice.

Besides the B&W one I don't see anything really special or captivating. Try different angles, looks like a tourist went out and took some pictures. Get in a little closer, last one is way too zoomed out if you catch my drift.

I really like this picture, your camera has good quality.

Oh shit, I am sorry. xP I guess I wasn't thinking

SoldierX - October 13, 2013, 12:48 am

Looks okay :)

Actually I am also of your type, restrict my photography till tress and sun ?

We both need an artists eye ?

Defirence - October 13, 2013, 10:19 am

Love them, fuck all the assholes who say that your photos are shit. That first one i want as my wallpaper, i'm going to do that. Plz pm me the direct link. Ty ^_^

Handsome Banana - October 13, 2013, 11:58 am

I think the sun would've been perfect if the trees were not fully black.

Shards - October 13, 2013, 12:27 pm

I like the black and white one, but the others aren't that appealing to me. Try to get some better angles, and they will be a load better! Keep it up!

Anal Voyage. - October 13, 2013, 2:50 pm

Thanks for the feedback and critique, everybody. C:

Photography is something I'm really hoping to improve in!

This was the second time I've tried photography, and here's round 3:

Anyway nice photos OP.

Wow I was going to ask what phone you had if it took those kind of pictures but good job looks nice

Minnesota Nice - *October 13, 2013, 8:14 pm*

Aperture is way too high on the first photo, blows out the sharpness.

MissChiff - *October 14, 2013, 8:01 am*

I don't really see anything that pops out. Try adding an effect, or like drugs said, try different angles.

Don't tell people to "add effects" because you clearly don't understand photography.

skript jonson - *October 14, 2013, 5:05 pm*

Nikolas - *October 14, 2013, 5:30 pm*
