Thread: [Selling 4 methods to get free Riot Points! EXTRAS! \[\\$5\]](#)

David Tennant - October 12, 2013, 5:50 pm

Have you ever wanted unlimited Riot Points? Have you ever wanted that amazing new skin? That one skin that's limited edition and will only be here for a few weeks?

Have you ever said to yourself, "I don't have the money to buy RP?"

You won't ever have to want or say those things ever again, because I'm here to sell you my guide on how to get FREE RIOT POINTS.

I've bought countless eBooks stating that they have "new and original" methods on how to gain free RP. What I've now created is the ultimate guide for accomplishing this goal.

I have worked for weeks on this eBook and I hope you can find good use of it!

There are 6 methods total in this PDF, I have personally tried all of these myself.

You can get this amazing guide for only \$5.

If you're interested, post here or PM me and we can get the deal rolling!

I accept PayPal and Bitcoin. Bitcoin gets a %35 discount!

Two vouch copies, maybe three will be given out! 0 left... If you really want a vouch copy and you are l33t OR ub3r, PM me and I'll give one to you!

Just in case you're skeptical, [here](#) is my previous post in the Premium Sellers section with vouches. I only have two vouches but they are from HQ users.

Vouches: Quote:This files gives 4 different methods of how to get free rp. Some of them does involve work but with practice and time, you can achieve each method with ease. In all, these methods do work and should get you RP. Vouch for you my friend and Good luck with selling :)

Quote:read though it. these should work! method one should work 100% but you will need a friend and some balls. I will try method 2-3-4 probably tomorrow since their fairly easy. vouch these shiuld work fine.

If it's anything related with Boku or mobile payments or SE, don't bother.

You wouldn't be allowed to sell it here.

I cannot reveal too much about this guide. What I can tell you is that I do not tell you about that new phone method that gets you banned.

I bought this ebook from another guy about 1 year ago, and the exact same price, I will tell you what this shitiest ebook will say:

First method:

buy \$100 worth of RP via paypal and open a dispute

second one:

get your friend's phone and try open paypal to buy RP with

and the others are just useless, I remember this ebook when I bought it...

Edit: and the exact name too....

Lol, that's not what this eBook is about. It's the methods that I have personally tried that have worked.

I bought the same eBook as you when I was researching to make this one.

Where have I called it original? That's besides the point.

This guide is a complete guide on how to get free RP. It is original in the sense that it is the first of it's kind to be written with these methods, this way.

It is a unique guide that is sure to make you some RP, or your money back.

If I can quote directly, I said "there are tonnes of ebooks claiming to be 'new' and 'original'."

I did not say that about my own ebook.

Thanks for the luck though :D
