Not a problem my man, glad you enjoyed my idol.

Hacked88939949 - October 14, 2013, 3:19 pm

It is actually really good. If we want slim shady back than he has to get back on Ambien, Valium, Xanax and Vicodin.

Btw is your sig real shit?

Cletus Kasady - October 14, 2013, 3:21 pm

Awesome song can not wait for his new album if I'm honest!

#Redemption - October 14, 2013, 3:42 pm

tbh I kinda liked his old stuff better, you know "Survival of the fittest" "Not Afraid" & "Space Bound" where my favorites.

Man, this past week has been a dope ass week for rap & Hip-hop. First Nipsey drops a new mix tape, following day The Game drops one too. Fucking hit after hit. Now EM drops this fucking Ill track. Swear this shit gave me the chills. Glad to see Em still has it. He deserves the title. No doubt about it, he IS the Rap God.

ItsATumor - October 14, 2013, 4:13 pm

Thanks for the heads up, this just gets me more excited for the album.

N?sty - October 14, 2013, 4:23 pm

Some parts in this song are so fucking awesome, I really liked it actually. Wasn't expecting this

ZuGgY - October 14, 2013, 4:24 pm

Third thread I've seen on this but I love this song.

ShadyLTD - October 14, 2013, 4:35 pm

Now look up the lyrics... so incredible haha

Dr. Baaa - October 14, 2013, 7:26 pm

And this is why Eminem is the only rapper I can tolerate.

Hiro90 - October 15, 2013, 4:57 am

those songs he is realising .. worth the years we waited!

Farcast - October 15, 2013, 6:23 am

Em is finally back at full force, love it.

Moderns - October 15, 2013, 7:13 am

It's decent, I suppose.

Flow and beat remind me of a commercial(mainstream, yes I know hipster) song though, not slim/marshall

D.B. - October 15, 2013, 7:47 am

I also rather enjoyed this aswell. Not bad.

The instrumental is a bit different I really like that part. I don't listen to much rap, but his work is amazing.

Brand?n - October 15, 2013, 7:51 pm

This song is actually really good. Has to be my favorite rapper by far.

Dread Lawn - October 16, 2013, 4:37 am

Bit risky calling his new album MMLP2 but if all his songs are like this i think he'll kill it!

Thanks for the share! - Love the song!

Big Fan!

domzaw - October 16, 2013, 6:50 am

Cool track !! I like it a lot ! Though Eminem is not my all time favorite

Reptilian - October 16, 2013, 10:12 am

The people who think his music is good now don't know the old Shady. He has gone down hill since 2004. Since he took that big break and stopped doing drugs, he went bad.

Then stop listening to him?

We don't care if he went down or up. He's a king, and this song is very good, even if it's not the Eminem that was in Beautiful for example.

"Why be a king, when you can be God?"

Who says I listen to him anymore. I probably listened to Eminem 20x longer than you. I listened to him every fucking day for at least an hour since I was 13 on my way to school. I know his life story and have heard every song of him at least 1000 times. I had posters in my room of him. He isn't a king anymore. He died after "when I'm gone".

I think Relapse album was pretty Slim Shady, or 3 AM on Recovery

Ah my bad that could be Relapse yes but the Old Slim made that music where you can lay back and relax. The modern day "Slim" also makes good music but its not the same and he shouldn't call this MMLP2.

Pretty much the same, except that as I am French I do not know all the meanings.

"He isn't a king anymore" > This is because now he's a God.
(only kidding with you).

Seriously, I still like what he's doing, even if it's not the same.

AnAlpaca - October 17, 2013, 10:28 am

Berzerk was Slim Shady

Survival was Eminem

Rap God was Marshall Mathers

TomHimself - October 17, 2013, 11:21 am

His flow is really amazing. It isn't his old style, but I still like his voice and his style.

MrMissingNo - October 17, 2013, 11:22 am

Mm. nice groove. Never been such a big fan of eminem, but this was goood.

Wheezy Gang - October 17, 2013, 11:22 am

So around like 4 minutes when hes like "Lyrics coming at supersonic speed" Is that his actual voice? Like is he really rapping that damn fast or is that speed up?

adampelletgun - October 17, 2013, 11:23 am

Three great releases in a short time.

Can't wait for more!

The difference is I like the way he's rapping in this song, how diverse he goes from one rhyme to the next. I like how he dissed other rappers, makes great connections between his other song with the verse about columbine and so on. The lyrics are amazing, it sounds great.

No white people can rap there is alot of extremly talented white people like Vinnie Paz and Diabolic.
Just listening to "I dont wanna rhyme" by Diabolic makes me shiver.
But Eminem is actually a really great rapper. He is not bad I just hate his fans. Matter fact I fucking love Eminem and I actually think that he will come back to the Eminem he was before, he's working his way up.

Lines - October 17, 2013, 3:32 pm

By far the best rapper ever, and hes not hardcore cussing which allows my mom to like him aswell.
