10 pictures are for \$4.

100 pictures are for \$36.

PM me if you are serious, do not waste my time (as if this service is not wasted time!)

WHY you should buy it from here:

I'm not expensive at all, this is not a living for me, I make it look legit.  
Good question.

I use a method that I have developed by myself. The text that I do actually looks legit. Many of the people that have vouched here have actually doubted my capacity to do so, and I have made pics for them. They told me it was amazing. Just ask them: Peter, Snoopers, rero2, Minnesota <3, Kiwi, etc... All these? Clients of mine.

I saw other guys doing a picture for \$2, and honestly? These pictures lacked credibility. They are using low-quality methods. Me? I use a method of my own that I have learned to accomplish by accident, believe it or not.

What do they offer? A teddy bear with bulk pictures? I discount bulk purchases, just ask my customers, they have posted on the thread, and that's not even all of them.

(Nov 2, 2013 09:16 AM)Balloon Wrote: [\[CITE\]](#) "I thought this was real.."

That's how good his PS work is, if it made you believe it was.  
I have multiple samples on my PC to show you. Some of them are SFW, some of them are NSFW.  
Price depends on what you are actually asking me to do. Most commonly it will be 0.5\$, but price may differ if you're asking me something harder.

So you are photoshopping names on girls for money? Seems legit.

reama - October 17, 2013, 3:03 pm

I am not sure if this is a joke...

This is false information. You are not getting hot girls to write names. You Are doing the EASIEST technique on photoshop. This was also posted on the forum as a "TUT"

Obli - October 19, 2013, 7:54 am

Oh my sweets....

Who do you think I am, Charlie Sheen?

I USE PS, and my clients know.

My shit looks legit, unlike the shit on many, many "TUTs" here.

Still doing this.

Not bad, you may want to make the 'font' a little more messy, its hard to believe you can write that perfectly on yourself.

It was just a vouch. I use multiple messy fonts, the guy who wanted the vouch just wanted an example pic, so I grabbed the first I could get.

Will upload a few other pics later on, so that you may see what I do.

**Obli** - October 26, 2013, 2:33 pm

WOW! GUYS, THERE IS A GUIDE ON HOW TO DO THIS!

I have my own methods, obviously. Don't like it? See if I care. You could search the whole Internwebz, you would not find my method, since I have invented it.

But then, it is up to YOU to decide: Have a shitty, non-believable text that looks like something made in Paint, or get what I do best.

Get a tablet and draw the text by hand, this will look at least a bit real compared to whatever font it is you're using at the moment.

I mean then again 50 cents, who am I to complain?

Most LQ post on this thread, I royally invite you to go fuck yourself.

Wow, what a ripoff. There are plenty of tutorials around hackforums on this.

**Obli** - January 11, 2014, 12:58 pm

Oh my sweets. The method I have is something totally different from the other public methods. How do I know it? I've searched it up. I would not even sell this service if I knew that one could get the same results for free.

Again, the method is something I have developed. It does not consist of anything related to other methods. If it was, I would not sell it in the first place.

It is unique, simple, has a couple of steps. Not something anyone could find that easily.

Even if she was a contortionist there would be no way for her to write her name like that imo. I had a girl ask me to write her username on her because she was unable to write it herself, without making it look like she was retarded for a dating site.

I am thinking of making unique pics for my clients. Pics that I'll only use for a specific client, of course, it would cost more than 50 cents, but it is still a good idea.
