- 1.) A complete copy and paste design from affpaying. Doomed to fail.
- 2.) Only 30% of Total PPD sites listed.
- 3.) Come up with your own ideas.

No offence but it is most likely you are willing to make a big referral network.

And Mediakings is neither PPD nor CPA...It is PPI....

No offence :)

I found it useful to monetize it by refferals also :)

I don't think it is a problem for people who want to read some reviews .

YES!

I don't inforce somebody to enter on our website.

If you don't like it ,or don't think that it is necessary, don't enter on it.

Some years ago there was sharecash ,why then appeared fileice,cleanfiles and other networks ?
Facebook was opened a lot of years ago ,why everyday appear new social networks ?
