Thread: [\[Tutorial\] What is a Stub? ~ Working of Stub Explained \[Newbies Must See\]](#)

The 7th Sage - April 22, 2010, 10:32 pm

I've made a tut in the tutorials section. For those who wanna know about Stubs and what they do, please check it out. Didn't want to make another copy of the thread so just linking you:

I know most people either just come to the logger section and some only to the tutorials section, so its better to link you both ^^.

Very nice tutorial, will surely help out the beginners :)

And will probably stop some stupid questions.

400 Posts, yay!

Now, I must stipulate that this Is a well-written and elaborated tut with supportive Illustrations, from beginning to end. Very easy to follow, hence a good starting point for any newbie.

Keep up the good work.

Cheers mate :)
