bro there are many factors :

1. Many other guys are selling nixie stuff only , that's why nixie is doubtful to whom should bin be given. (and guys who purchased from nixie are selling stuff wo widely and thus making it undected)
2. And some skids scan on Multi Scanners which distribute the report (that's the reason use those multi scanners only which don't distribute)

~Nixie Pixel working hard to make them FUD, so please don't make post here, contact via pm only

And i am agree nixie is not active from last few days (that's only because he will come with new things to HF community) and i am talking to him regarding this.

So please stop don't make foolish excuse. And now i am doubt that you are also re selling nixie panel and making it un fud. But if you paid money then you'll again get new update (new update is not released yet but iif you paid already then i am sure you'll get soon).
