Thread: [\[TuT\]How to start Ewhore/E-whoring\[TuT\]](#)

AgentPaashaas - October 22, 2013, 8:23 am

Hi Guys I thought why not to make a tutorial so well here it is.

1. You need a name for you whore you can choose any name but make it a little bit sexy, not like dorothy but like annie julie but its your choise so i wont bother you with that.
2. You need an account for each of the following websites:
<http://gmail.com> Gmail/any mail you want (i find gmail the easiest one to use
second one is
<http://paypal.ca> PayPal, i advise Canadian PayPal because you have more chance not to get limited and its less suspicious.
and the last one for now is
<http://skype.com> Skype, you need skype to contact all the victims/Pervs/Pedo's how ever you want to call them

So if you made all of those 3 accounts you can almost start e-whoring,(you can also use a VPN for your safety, its optional for a VPN you can search on the forums there are plenty that are free or for sale).

now you need to choose what method you wan't to use on E-whoring you can start of with any method you want the easiest one i think is just selling pictures, you download an picture pack of one model and go sell it,

the second method is VCW=virtual cam whore its more advanced and you probably need to give this method more attention because if you already started a cam show you can't fail and press the wrong option or you fail and probably need to return the money to your victim.

and the last method is Craigslist but i don't know how to e-whore with craigslist because i never used it so if you wan't to do it with CL then search on the forums on a CL tutorial on it there are plenty.

So to really start off you can go to any chat website the easiest you can start with
<http://chat-avenue.com> and there are adult/teen chat you can try any chat you want, the you go in the chat and say something like this "Hey guys! Wan't to add me on skype to chat? YOURSKYPE and then you can watch all the pervs adding you on skype, then you just put your social skills to work and you should make progress in the first hour or two

Thanks for reading the tutorial i just made an easy one and really fast so please don't judge :)

Love to hear any good progress from you!

Merric - October 22, 2013, 8:24 am

Nice tutorial OP, it was informative and straight to the point. Very easily understood and I hope to see much more from you in the future.

Very Nice Tutorial, HQ.

AgentPaashaas - October 22, 2013, 8:43 am

Thanks :) didn't expect that good feedback :P

Tony Soprano - October 22, 2013, 8:45 am

Tells you the basics good, also you will need a VPN if you're making a .ca account and you're not in Canada. I had a VPN which constantly changed IP and they limited the account think numerous people were accessing the account.

Thanks for this, I'm sure it will help many users!

Got one question;

I already have my own personal paypal account linked to my bank card with my name in the email (I'm a boy). Can two paypal accounts be linked to one bank card? If they can then i will be able to make another account with a girly email and be able to E-Whore... if they can't, i'm pretty much screwed right?

the thing is pretty much you don't want you fake paypal be linked to your bank you just make a fake paypal and you are ready to use it :)?

So you're telling me..

Your Canadian account has been made from your dutch IP address, you keep logging in on it via your dutch IP address?

And your real paypal has been set to USD?

Cuz i got the same right here..

Canadian paypal account (Made from a dutch IP address)
Real account in USD.

And still afraid to get limited though.

Nice man! Pretty much how I do it! You can also spread your skype on many different sites like Omegle or chatroullete.

Also a nice site for E-whoring:
adultchatpad I E-whored the fuck out of my self.

that's always nice to hear hahaha :) GI with E-whoring everyone :)?

?The Fallen - October 23, 2013, 9:00 pm

Nice tutorial man. Do you know anywhere to get a free or cheap ewhore pack.

Decentral - October 23, 2013, 9:45 pm

so i just get my skype out there and then ask to donate for pictures?

AgentPaashaas - October 24, 2013, 12:03 am
