Unbeatable price for a box of rubbers! Good save.

GL1TCH3D - October 25, 2013, 10:15 am

Are these good quality?

Never heard of that brand.

If they're good I'll get a box... always running out and it feels awkward buying them at my pharmacy because I work there now.

Can't you get condoms for free different places for those who need them?

You can get free condoms from companies if you say it's for a health fair.

I'm just wary about the quality of these condoms.

These are probably more for demonstrations at health fairs than anything

I could be wrong though

I bought/ used them before. Its pretty decent. Just dont do any domimatrix shit

PRODIGY™ - October 25, 2013, 7:37 pm

Oh yeah the health department tends to give them for free.

Condoms is not a type of product I'd be willing to sacrifice quality for a few extra bucks haha. Wouldn't want one of these cheap condoms to break on you.

Pay \$5 extra or Pay \$200,000 Extra + 18 years of headache? you tell me.

Focusal - *October 26, 2013, 3:30 pm*

But these arent bad. I compare them to trojan imo. they match up pretty nice

What an odd kind of thread..

Well to each his own.

I would spend a bit more on a better quality condom. Those cheap ones can split easily.

scriptsquid - *October 27, 2013, 7:39 am*

Does amazon sell coat hangers? I may be able to find some for cheaper than 12.22 plus the latex saved is good for the environment
